**Notice to Residents:**

**Re: Noise Bylaw Exemption Wednesday, August 8, 2018**

North America Construction (1993) Ltd. (NAC) is constructing the Secondary Treatment Upgrade Project for the Regional District of Nanaimo's Greater Nanaimo Pollution Control Centre at 4600 Hammond Bay Road. Scheduled activities require early morning and possibly late night work to complete a large concrete pour on one of structures at the plant.

**The City of Nanaimo has granted NAC a Noise Bylaw exemption to complete work from Wednesday, August 7, 2018 at 5:00 am to 12:00 am. Neighbouring residents may notice noise and light during this time.**

We do not foresee the work taking up the entire duration of the permit, but given the nature of this work we would like to ensure we have no time constraints. Construction work will involve concrete trucks, concrete pumps, grinding and other small tools.

While we may request future Noise Bylaw exemptions, we will make efforts to keep construction activities within the regular construction hours.

Please call me to discuss if you need any further information. I may be reached at 250-751-4262 ext. 22 or on my cell at 250-714-3917.

Thank you,

---
