HAZARDOUS MATERIALS REPORT FORM

This form is to be completed and submitted in conjunction with an application for a Building Permit where the proposed works include **alterations or renovations within an existing structure or the demolition of a structure.**

The information provided here is intended to assist the Building Official in determining if a Hazardous Material Survey (HMS) in accordance with WorkSafeBC guidelines has been completed. If a HMS has not been completed, the Building Official will request further information regarding the scope of the project and the presence of any potential asbestos-containing or other hazardous materials prior to entry into the building. If deemed necessary, the Building Official may request that a HMS be produced. If one cannot be produced the Building Official may cease the inspection for safety reasons.

Project Address:

Applicant:

Was the existing building constructed prior to 1990?

Yes No

Has a Hazardous Material Survey as per WorkSafeBC Guideline 20.112 been completed for this project?

Yes No

Please note, if an HMS has been completed, documentation including the survey and evidence that the disturbed material was removed and disposed of properly must be available and produced upon request for inspection purposes.
