

North Cedar Improvement District Water Service Area Declaration Form

Legal Description:
Property Address:

Your property is within the North Cedar Improvement District (NCID) water service area. It is your responsibility to ensure there is a supply of potable water for this proposed construction as per BC Building Code.

A water connection for a New Building Permit may conflict with NCID moratorium on new connections and may NOT be approved by NCID.

An Occupancy Permit will NOT be issued until the building is provided with a supply of potable water. It is strongly advised that you discuss your proposal with NCID (250) 722-3711 and ensure that your water supply is secured BEFORE you sign for and accept your building permit. Building application fees are non refundable.

I (we) acknowledge that I (we) are familiar with the property and with North Cedar Improvement Districts (NCID) moratorium on new water connections.
