REQUEST FOR PROPOSALS

Web Mapping System

Addendum No. 3

ISSUED: October 9, 2018

Closing Date & Time: before 3:00 PM (15:00 hrs) PST on October 19, 2018

This addendum shall be read in conjunction with and considered as an integral part of the Request for Proposals. Revisions supersede the information contained in the original Proposal or previously issued Addendum. No consideration will be allowed for any extras due to any Proponent not being familiar with the contents of this Addendum. All other terms and conditions remain the same.

Questions & Answers

Q1. Regarding the Functional Requirements, Analysis section, page 7 of the RFP, some of the items (in particular AN01, AN02, AN08, AN09, AN10, AN15 and AN16) are functionality that we do not typically see provided via a web mapping application and are typically performed by a small number of users, infrequently using desktop software with rich analysis capabilities. To provide this functionality in a web mapping application may require significant custom development. Is the Regional District open to alternative non-web-mapping solutions for these requirements?

A1. The RDN Web Map currently has two versions. One is for internal staff; the other is for public use. More detailed analysis is performed with the "internal" web map, but the above mentioned items (AN01, AN02, AN08, AN09, AN10, AN15 and AN16) could be used both internally and externally. The Regional District is open to alternative non-web-mapping solutions for these requirements as an option. It would be preferable to provide costing for both options with details in a proposal response.
