Subject: Electoral Planning Committee Meeting of May 12, 2009

I wish to appear as a delegate at the above-noted meeting in respect of Development Variance Permit Application No. 90818.

My contact information is shown in the signature line below.

The subject to be discussed is the report and recommendation from the RDN Development Department regarding a variance permit for an existing deck on my property. The staff is recommending that the permit be denied. I would like to request that the Planning Committee approve the deck because: (1) my wife and I bought this new house 18 months ago with the deck in place - in good faith we certainly expected the deck to have been approved by the appropriate authorities, and it was only later that we learned the permit was still in progress and not yet completed; (2) the deck is well designed aesthetically and structurally, and cost a significant amount of money -- it does not make sense to remove it in whole or in part.

Thank you.
