- 37-103 2014 Proposed Budget Overview (All Directors One Vote).
- 104-151 Proposed Revisions to Amendment Bylaw No. 500.385, 2013 Lakes District & Schooner Cove (Electoral Area Directors, Except EA 'B' One Vote) Amended version of November 22 staff report with attachments.

November 22, 2013

Regional District of Nanaimo 6300 Hammond Bay Road Nanaimo, BC V9T 6N2

## Attention: Joe Stanhope, Chair, Regional District of Nanaimo

Dear Mr. Stanhope,

Re: International Composting Corporation Reorganization

I am writing on behalf of Barry Fairbank, Dave Francis and myself as the prospective buyers (the Buyers) of the Nanaimo plant assets of International Composting Corporation (ICC). Although ICC has been essential to the success of the RDN organics diversion strategy, the company's inability to complete its odour management plan has led to unacceptable off-site odours. We believe that it is imperative that these odours be mitigated. However ICC does not have the financial resources to implement the required improvements. Consequently, we are respectfully submitting the following proposal to reorganize the company to ensure long term financial sustainability as well as effective odour management.

### <u>History</u>

International Composting Corporation (ICC) opened its composting plant at 981 Maughan Road in the Nanaimo Duke Point Industrial Park in April 2004. ICC's decision to construct their plant in Nanaimo was predicated on RDN policy that a commercial organics ban would be imposed once a private composting facility was constructed in the RDN. Their decision was also founded on the RDN's commitment to creating a level playing field for composting facilities by introducing a facility licensing system.

The presence of the ICC plant in Nanaimo was fundamental to the approval and implementation of the RDN Organics Diversion Strategy in 2005, which has resulted in a ban on commercial organics (2006) and the successful Green Bin food waste collection program to over 50,000 single family residents throughout the RDN (2010-2011).

ICC continues to receive organic waste from the RDN residential Green Bin Program and commercial sources as well as yard and garden waste. ICC is paid a fee per tonne of material delivered to the plant. The waste is then processed and removed (currently by Alpine Disposal). No removal fee is paid to ICC. Income to the plant is solely based on delivery fees.

### **Buyers**

The Buyers first became involved with ICC more than a decade ago, as original investors under the Venture Capital program (VCC) sponsored by the Province of BC to encourage new technology development. Many other local investors were also involved as we believed in the goals of the RDN Solid Waste Management Plan and felt that the establishment of a composting plant was integral to the Plan.

We were the original co-owners with ICC of the land and buildings. ICC has always struggled with cash flow. It is a case of an undercapitalized company with insufficient cash flow run by scientists rather than

business people. Over time, the rent arrears kept mounting until we finally took over complete ownership of the land and buildings. ICC continued to operate the Duke Point plant.

A part of the 2010 contract between ICC and the RDN was completion of an Odour Management Plan. The plan called for a number of steps to minimize off site odours. These steps have not been completed due to a lack of funds. Completion of the Odour Management Plan is a top priority for the Buyers.

### Current Financial Status of ICC

At this time the liabilities of ICC are significantly in excess of any asset value.

There has been a lack of ongoing maintenance to the point that the buyers have had to advance \$150,000 in the past two months, just to keep the plant operating so the RDN programs could continue. We believe there are only two alternatives – our successful takeover of the plant or bankruptcy.

We have reached an agreement in principal with the directors of ICC to purchase the Nanaimo assets of ICC. Other than having the right to carry on research (in conjunction with the BC Bioenergy Network), ICC would have no involvement with the plant.

Our takeover would include the investment of at least \$1 million to complete the following work:

-	Completion of odour control work and	
	bonding as per RDN agreement	\$360,000
-	Completion of deferred maintenance	\$300,000
-	Payment of accounts payable/judgment	<u>\$340,000</u>
		\$1,000,000

An additional \$300,000 to \$400,000 investment will be necessary to expand capacity for the anticipated increase in supply of commercial organic waste.

The agreement with ICC contains a number of conditions which must be met before the purchase is finalized:

- 1. Approval by the BC Bioenergy Network to allow priority of the financing over their existing registered general security on all ICC assets.
- 2. Reaching agreement with the various payables and judgment holders.
- 3. Approval by the ICC shareholders.
- 4. Approval of new financing for completion of work detailed above.

The most challenging of these conditions is financing. We have met with the Coastal Community Credit Union (CCCU) who is the current mortgagee on the property. They have two main points they need to have satisfied. The first is written confirmation from the RDN that if the agreed upon odour improvement work is completed that the contract will be renewed for a further five years. I am aware that wording is contained in the current contract but they have asked for confirmation.

Their second requirement is provision of a cash flow analysis showing a positive cash flow of about 10% of operating expenses after allowing for equipment depreciation over the expected life of about five years.

We have reviewed the operating income and expenses and the anticipated capital expenditures. It is clear that based upon the current operating numbers and anticipated capital expenditures, the plant operation is not viable on a long term sustainable basis.

#### The Proposal

There has been far too much effort and cost spent on composting, including the Green Bin Program, to let it fail now. The plant exists, the equipment is in place, the technology works. The only think lacking is money.

We are prepared to take over the current plant, assume liabilities and invest significant new dollars in upgrades including odour control measures. The new investment is estimated to be at least \$1 million and is in addition to our current investment of a similar amount.

In order for the plant to be viable with the additional investment required, the current income must increase. Our goal is to have a thoroughly updated, odour controlled clean and efficient plant which can operate on a long term sustainable basis.

We have received a letter from Johnston and Johnston accountants in which they advise a minimum return of 10% of annual operating costs as well as the depreciation of the equipment over its estimated 5 year life annual operation costs for the operation to be sustainable long term.

We have received a commitment letter from CCCU confirming the availability of financing to pay for the work detailed above, conditional upon a revised contract with the RDN which would include a 5 year renewal confirmation and satisfactory rate increase. This commitment includes personal guarantees by the three of us for the new financing.

In order to meet the required criteria of the accountant and the lender, the current contract is underpriced by at least \$293,000 per year. There are a variety of ways adjust the current fee structure which can be discussed with staff.

Our research has shown that an organic waste delivery charge in the range of \$120 - \$125 per tonne is required for the plant to be sustainable.

#### **Implementation**

The fee increase and contract renewal would not take effect until the odour management plan is completed and the \$50,000 bond is in place. We anticipate the odour management plan and plant upgrades would be complete by late spring 2014. We believe we have shown good faith in this process by our recent investment of time and money (\$150,000) over and above our previous significant investment in ICC. We would anticipate that included in the revised contract would be an annual fee increase of 2%.We would also anticipate a clause that if Government regulations were to change which resulted in increased costs, that those costs could be addressed. We all recognize this is an industry that is "learning as it grows".

We need to resolve these points with you in order to confirm our financing and move forward with satisfying the other conditions of purchase. We are prepared to shoulder the risk and effort to make the composting plant and RDN composting program a success. We will need a letter from you confirming the new contract arrangement for financing approval.

We are confident that once we are past the financing hurdle, we will be able to complete the purchase by early 2014. We are ready to meet and discuss with you the above points at your earliest convenience.

Thank you for your consideration and understanding of this difficult situation. We commit to doing our best to ensure the successful continuation of the RDN Zero Waste Plan. We also hope that the many local investors in ICC will be able to recover their investment. They invested because they believed in the concept of a more responsible green community – and so do we.

Yours Truly,

I ANNI DA

Dave Hammond

# Re: Proposed Revisions to Amendment Bylaw No. 500.385, 2013

From: Gerry Sent: Saturday, November 23, 2013 4:32 PM Subject: Re: Proposed Revisions to Amendment Bylaw No. 500.385, 2013

I would like to appear as a delegation to the Board Meeting on November 26 respecting 'Proposed Revisions to Amendment Bylaw No. 500.385, 2013 - Lakes District & Schooner Cove'

Gerry Thompson, President, Fairwinds Community Association (FCA)

Development Variance Permit Application No. PL2013-108

#### To the Variance Board

My name is Brian Dailly and live on the waterfront at 1315 Marina Way. I was asked by my neighbor Mr. Sidney Lee to come over to his house at 1268 Marina Way to have a look at his mini wind turbine power generator installation.

Although I was informed that it does not conform to the minimum setbacks required by the RDN, I do not see an alternative location for this project to work efficiently. If it was to be moved to the required setbacks, in my opinion would be out of the wind source and impossible for this to work efficiently.

From what I know, Mr. Lee is a hamm radio operator and a member of the Emergency Communications Team. He uses this mini wind turbine generator to supply back up power for his communication equipment. The use of natural resources to generate power should be encouraged. In a time of natural disaster Mr. Lee would be an integral part of keeping in contact with both Safety and Health personnel.

Both my wife Delores Dailly and myself strongly support Mr. Lee's application for the variance required to leave the mini wind turbine in it's most efficient location. We would like to see the Board grant this Development Variance and vote in Mr. Lee's favor.

Sincerely Brian and Delores Dailly From: Carol Bell

Subject: Development Variance Permit Application PL 2013

Mr. George Holme Director, Electoral Area E Regional District of Nanaimo

Dear Mr. Holme,

## Re: Development Variance Permit Application PL2013-108

I am writing with respect to the development variance permit application by Mr. Syd Lee to keep up his illegal installation of a 350 watt wind turbine on a 19 foot mast in the front yard of his property at 1266 Marina Way in Beachcomber. Mr. Lee has violated the existing setback by-law which requires a 15 metre setback from the high tide mark. His turbine is only one metre from the high tide mark thereby violating the zoning by-law by 14 metres. I am opposed to granting Mr. Lee the aforementioned development variance permit for the following reasons:

- 1. Mr. Lee applied to the Board of Variance for a 14 metre relaxation of the by-law <u>after</u> he already constructed the turbine. The Board of Variance rejected the application and required Mr. Lee to take down the turbine which he has failed to do. Mr. Lee had no respect for the setback by-law when he constructed his wind turbine only one metre from the high tide mark instead of the required 15 metre set-back. Now, he has applied for a development variance permit to allow him to keep his illegal wind turbine standing. Mr. Lee has violated the by-law and should be required to take the wind turbine down. What is the point of having a by-law if it is not enforced?
- 2. I live at 1409 Marina Way in Beachcomber on the water. I would be very upset if my neighbours adjacent to my property decided to put up wind turbines. What would the beautiful pristine coastline of Beachcomber look like if we all decided to put up wind turbines anywhere we pleased disrespecting the rights of our neighbours to have an unobstructed view of the water and mountains which is why we moved to Beachcomber in the first place? As you can see, allowing Mr. Lee to leave up his wind turbine would set a dangerous precedence.
- 3. Mr. Lee claims that the wind turbine will supply energy to support his communication equipment to help the residents of Beachcomber as a member of the Oceanside Emergency Communications Team of volunteers who work with the RDN and local municipalities. Mr. Lee already has 1400 watt solar panels on his roof which supply enough energy to keep the batteries of his emergency communication equipment charged. The wind turbine will only supply an additional 350 watts of energy. A 600 watt generator which costs less than \$1,000 would do the job compared to the \$19,000 he claims he spent for the wind turbine.

4. Mr. Lee did not consult with his neighbour, Mr. Andy Lankester, before he constructed his <u>illegal</u> wind turbine and has violated his rights to have full enjoyment of his property.

I support looking for alternate energy sources but don't feel that people should individually make decisions with respect to this matter. Official policy with respect to the placement of wind turbines and other alternate sources of energy needs to be adopted. Otherwise, by-laws will be broken, harmful precedence will be set and neighbours' rights will be infringed upon.

I urge you and the Board of Directors of the Regional District of Nanaimo to vote against Development Variance Permit Application PL2013-108 at the regular Board meeting to be held on Tuesday, November 26, 2013.

Respectfully,

Carol Bell

Subject: Board of Variance permit: NO. PL2013-108: Lot 18, Block C, District Lot 38, Nanoose District, Plan 12496
Importance: High

Attn: RDN Planning Department:

The purpose of this email is to provide support for subject board of variance.

From an emergency preparedness context, we STRONGLY support this little wind turbine in our local area. As fellow waterfront owners, in close proximity to subject property, we feel that the current structure is very well situated; and not an eyesore in any way. Indeed, it is a tremendously good idea to have someone in our somewhat remote area of Nanoose (*Beachcomber - end of Cottam Point*) to readily communicate to the outside world in times of natural disaster – such as a tsunami, or earthquake. This innovative, non-obtrusive wind turbine system is the ideal 'off- the-grid' system: it operates noiselessly, even when spinning fast, on the power of wind. One could perhaps argue that an alternate means could be a gas generator; however, that option is not nearly as good – as it could quickly run out of gas, and the closest service station is over 5K away. And in the event the of complete power outage in the area, the gas station would not be able to operate (hence no gas).

In short, the RDN should look favourable at this board of variance. We sincerely hope that the Board votes in favour of this board of variance.

Best Regards,

Rob and Mary Lou Henry - owners, 1309 Seadog Rd.

From: Donna Newall Sent: Monday, November 25, 2013 7:33 PM To: Planning Email Subject: beachcomber "turbine"

I use turbine loosely as it is more like a small windmill. Syd Lee has had the ham radio for about 40 years and assisting the community, I would think, with his emergency communications. I can't imagine that this turbine is bothering anybody and I cannot imagine many people rushing out to do install same. If this is an issue, I would like to understand why 1401 Marina Way had a deck approved that is out past the boundaries as well. I understand a protest was done there -while the house was being built- but the deck was approved anyway. Why was this allowed? If I am wrong about the latter, please inform me.

I support Mr Lee.

Thank you, Donna Newall 1242 Marina Way Nanoose Bay, BC V9P 9C1 250-468-2304 From: MELANIE VAN DER STOCK Sent: Tuesday, November 26, 2013 7:02 AM To: George Holme Subject: Development Variance Permit Application PL 2013 Importance: High

From: Thistle<<u>mailto:Thistle@shaw.ca</u>> Sent: Sunday, November 24, 2013 2:21 PM To: Alec McPherson<<u>mailto:alecmcpherson@shaw.ca</u>> Subject: Mr McPherson - RDN Agenda - Airport ToR

Alec McPherson, Director, Area A,

Hello Alec,

While preparing a letter and report to go the RDN Board's attention I had opportunity to review the RDN Agenda for November 26th. I was surprised to notice the correspondence from Nanaimo Airport CEO Mike Hooper, with respect to congratulations to the RDN on the process leading to the "comprehensive ToR". I must admit to not being familiar with this document, and since a search of the RDN website does not offer further insights I must offer this note at the last minute, as it may be pertinent to RDN decisions underway.

I believe that you Alec, and the RDN Board, are aware that the BC government has just completed a process that will lead to a final Water Sustainability Act going before the BC Legislature in the spring. Given this I would hope that the RDN Board would consider it premature to make any decisions at this time with respect to zoning and development and planning pertinent to airport properties and adjoining lands, as well as reserve any final decisions that may conflict with regulations and licenses which may soon be amended - affecting such lands and public interest.

I have attached a copy of MISSI's submissions to the proposed BC WSA, delivered on November 16/13. These can also be found on the BC Government website, <<u>http://engage.gov.bc.ca/watersustainabilityact/files/2013/10/Mid-Island-Sustainability-and-Stewardship-Initiative.pdf</u>><<u>http://engage.gov.bc.ca/watersustainabilityact/files/2013/10/Mid-Island-Sustainability-and-Stewardship-Initiative.pdf</u>>. These were the documents that we were preparing to present with a cover letter for the RDN's attention when I noticed the correspondence from Mr Hooper. Please note our specific Area A and RDN concerns, confirmed by a legal review of present and proposed legislation, raising questions about negative repercussions that may result to the Cassidy aquifer and those dependent upon it, following from operations of the airport and related developments.

FYI, I have also taken the liberty of providing a November 2011 letter to the RDN, the last that I or MISSI sent with respect to the airport, re-zoning and unresolved matters involving the Area A OCP. I would note that neither I nor MISSI have been kept informed of any process related to the airport, despite declared interest, and the ongoing involvement that MISSI had in the OCP deliberations for Area A.

Unfortunately I will not be able to attend the November 26th RDN Board meeting. I would however invite you In your capacity as Director of Area A to make such concerns known to the Chair and Board of the RDN as are pertinent to decisions under consideration particular to the airport and it's plans. Please feel free to circulate this note and the attachments if that is helpful.

As MISSI's submission to the proposed WSA notes there is a strong need for the public interest to take precedence in any and all matters that affect future sustainability and stewardship of the region, especially with respect to public assets such as our surface and groundwater.

Should you require additional information please don't hesitate to be in touch.

best wishes,

Laurie Gourlay President - VICCS

Vancouver Island & Coast Conservation Society, P.O. Box 333, Cedar, B.C., V9X 1W1, (250 722-3444)

> cc. - Living Water Smart <LivingWaterSmart@gov.bc.ca>

Re: Water Sustainability Act for B.C. Legislative Proposal - Public Comment

November 14, 2013

Dear Ms Polak,

MISSI received your invitation to review the Legislative Proposal, the Overview and other background materials on the new Water Sustainability Act, on October 23<sup>rd</sup>.

Although we do not believe this is an adequate amount of time for the public to provide input we have, as a non-profit society with a mandate to address matters pertinent to sustainability and stewardship – with particular interest in the region between Ladysmith and Nanaimo, made a special effort to review the WSA as it pertains to local considerations and circumstance.

First though MISSI would like to commend the government for attending to water considerations which have for so long relegated British Columbia to the last province to have regulations pertinent to this most important and essential element in our health and wellbeing.

That said we are compelled to express concern about potentially serious consequences that may follow if the proposals in the new Water Sustainability Act are not modified so that the public interest, and that of maintaining healthy ecosystems, are not put first and foremost above all other interests.

These matters are so important that MISSI, a local non-profit society with little funding and few resources, decided that it was necessary to engage the services of a lawyer in order to responsibly address important water issues that are not being considered in the proposed WSA.

The attached submission has therefore been prepared on MISSI's behalf, by Ms Denelle Lambert, a local Nanaimo Barrister and Solicitor, in order to clearly address these inadequacies, with the expectation that we will assist the government in refining the legislative proposals.

Before you refer to the accompanying legal review prepared by Ms Lambert however we would add that MISSI has a number of additional recommendations, gained through many meetings and consultations with local residents and authorities, and that we are prepared to go over any of the concerns that we see in the proposed WSA. We very much wish to assist the government in putting forward legislation that meets the public interest and long-term requirements for sustainability and stewardship.

First though we must emphasize that the current state of our local aquifers, and possible threats to drinking water quality and supply, suggest that the health and rural livelihood of residents may be at risk if the WSA is approved in its present form. The interest of southern Nanaimo communities, extending through to Ladysmith, are not adequately addressed nor fully considered in the Water Sustainability Act Legislative Proposal as it now stands.

In this respect, we make this assertion having hosted many public meetings over the past five years, all wellattended by local and rural residents – all raising concerns about local development plans which have the potential to adversely impact the quality and quantity of drinking water in the immediate area.

Residents of the areas comprising south Nanaimo and the communities of Cedar and Yellowpoint, live over the second most vulnerable aquifer on Vancouver Island. Despite this some 10,000 building permits were fast-tracked here over the past few years. Similarly, new developments have been quickly approved and advanced in the adjoining regional district, particular to north Cowichan and Ladysmith aspirations.

Without undertaking the studies and assessments that would determine re-charge capacities and the rate of drawdown underway that is adversely affecting local aquifers and groundwater supplies, these developments see the Cassidy aquifer, a vulnerable and threatened aquifer according to BC government documents, as providing them with the water they'll need.

This is neither responsible, fair nor just in terms of consideration for the needs of local rural residents and the ecosystems upon which they depend. The long-term health and well-being of those who live here, of the farms and small business in these areas, is being put at risk – and there are few requirements for due process or participation in decision-making that will honestly require their concerns to be addressed.

MISSI would then bring some of those concerns to your attention.

1) We have already noted the short timeframe as a major obstacle that will by its nature undermine policy and planning changes necessary to achieve best practices. A November 16<sup>th</sup> deadline is a date that serves the government's agenda, not that of rural and local residents who will be affected by the regulatory changes proposed in the WSA.

2) Groundwater, aquifer and watershed protection measures need to be fully integrated within planning for the region, Vancouver Island and the province, if growth projections and quality of life are to be assured.

The surprising revelation in the last two years, that the Yellowpoint aquifer is both little understood, and being rapidly depleted, has raised many concerns for local residents. And the vulnerability and potential for contamination of the Cassidy aquifers, beneath the airport and Island Highway, will require serious study before development decisions should be approved.

3) In order to meet the goals of sustainability and stewardship MISSI believes additional research is needed to identify potential threats to the groundwater and vulnerable aquifers of the local area between south Nanaimo and Ladysmith. The Nanaimo River and watershed, Cassidy and Yellowpoint Aquifers, should be now identified as requiring substantive early action and priority attention.

4) As this is not clear, and may in fact not be possible given the wording of the present WSA, MISSI would maintain that the proposed Water Sustainability Act be realigned to reflect similar

local goals and objectives as are expressed by the very successful local food and food security campaigns.

In this regard priorities of the government should be re-directed to ensure that protection and sustainability of local ground and surface water be the highest order of business addressed in the WSA.

5) We would finally like to suggest that MISSI believes there is a need to engage residents, business and communities in water issues and solutions – ones that implement sustainable development within economic, social and environmental goals.

Research on the availability, quality and quantity of local water supplies, combined with an education and outreach program that looks at water conservation and protection measures, offer a means to engage the public so that serious problems and pending water shortages might be addressed for sustainability and long-term benefits.

In this respect an emphasis on stewardship opens the door to immediate, proactive and personal actions that can be taken to offset further damage and demands on surface and groundwater.

In summary then, MISSI is requesting that the government delay introduction, 1st and 2nd Reading of the Water Sustainability Act, undertake further studies to assess choices and ensure water security, and consider means to involve all residents in the hard decisions that must be made in the near future.

We believe these recommendations along with those noted in the accompanying document, which together comprise MISSI's submission to the proposed Water Sustainability Act, offer a practical, reasonable and responsible approach to water and the regulatory regime in the Province of British Columbia.

With this in mind MISSI would note that we would be pleased to be a partner in these important initiatives, especially as they accommodate the considerations of local rural residents of southern Nanaimo and the region's southern communities extending through to Ladysmith.

Should you or representatives of the Ministry require further information, or if MISSI can assist in other such efforts, please do not hesitate to contact us.

Sincerely,

ferve four

Laurie Gourlay, Acting President Mid Island Sustainability & Stewardship Initiative

ATTN: Laurie Gourlay Mid Island Sustainability & Stewardship Initiative P.O. Box 333, Cedar, BC., V9X 1W1

Dear Mr. Gourlay:

## Re: Water Sustainability Act Proposal

You asked me to prepare submissions concerning the impact of groundwater protection provisions under the proposed *Water Sustainability Act* (the "WSA") on local water resources. You specifically asked that I focus on the Cassidy Aquifer and the Nanaimo Airport in doing this analysis.

## The Cassidy Aquifer and local business

The Cassidy Aquifer supplies drinking water to the residents of several smaller local communities and interchanges with the Nanaimo River, which is a drinking water source for Nanaimo residents.

The Nanaimo Airport Commission has operated the Nanaimo Airport since 1992. The Nanaimo Airport is located on top of the Cassidy Aquifer, a high producing aquifer that is sensitive to surface contamination due to its porous nature.

The Harmac Mill is a pulp mill located outside Nanaimo that has been relying on water from the Nanaimo River and on groundwater from the Cassidy Aquifer since the 1950's or earlier. According to the Water Query Licence Report on a provincial government website, the Harmac Mill currently holds 20 water licences for pulpmill purposes on the Nanaimo River, and also holds water licences for pulpmill purposes on two smaller tributaries, Sadie Creek and Halsam Creek, as well as a water storage licence for Foruth Lake. As groundwater is currently unregulated in the province, Harmac Mill's use of groundwater is not licencesd.

These submissions will focus on the impact of the proposed WSA on the Cassidy Aquifer using the Harmac Mill and the Nanaimo Airport as case studies.

## Only large-scale users can acquire licence

The provisions relating to the regulation of groundwater under the proposed WSA stipulate that domestic users are not able to acquire a licence while large-scale users are required to obtain licence. Given that Harmac might apply for a license to use groundwater under the proposed WSA, the question remains of what, if any, recourse of appeal domestic users would have if they disagreed with the government's licensing decision.

Section 92(1) of the current *Water Act* sets out who can appeal licensing decisions, and states:

**92(1)** Subject to subsections (2) and (3), an order of the comptroller, the regional water manager or an engineer may be appealed to the appeal board by

(a) the person who is subject to the order,

(b) an owner whose land is or is likely to be physically affected by the order, or

(c) a licensee, riparian owner or applicant for a licence who considers that their rights are or will be prejudiced by the order.

Assuming that the provisions setting out who has the right of appeal under the *Water Act* are incorporated into the proposed WSA, there appears to be a possibility that the government could issue a license to a large-scale user, such as Harmac, that could have negative impacts on domestic users' water and that such domestic users might not have any right of appeal.

Although a landowner could rely on section 92(1)(b) and attempt to appeal a licensing decision on the basis that the landowner believed that the decision would "physically affect" their land, it is not clear what the limits of this section might be. It is likely that considerable resources would be expended trying to clarify these legal issues and that years would pass before an answer would be given from the courts.

Moreover, if it was found that section 92(1)(b) did not apply to landowners who are domestic users, conflict would likely ensue as it is unlikely that domestic users would tolerate not having any say in what happens to the water that they rely on for drinking or other purposes, such as small-scale farming.

While riparian owners have historically enjoyed the right to appeal government decisions concerning water *abutting* their property, the failure to afford domestic

users with any right of appeal for decisions affecting water *under* their property would be unusual. A failure to afford a right of appeal to domestic users, while forbidding them from acquiring license, appears unprecedented.

## **Obligation to consider water in land-use decisions**

Because the Nanaimo Airport sits on top of the Cassidy Aquifer, which is a shallow porous aquifer, there is concern that as development at the Airport increases the quality of water in the aquifer below will decrease. As more jets are added, for example, the aquifer may be exposed to more jet fuel or to contamination from other toxins, such as toxins used in fire-fighting foams.

To compare with another case, the Hamilton Airport in Ontario used fire-fighting foam that contained Perfluoroctane Sulfonate (PFOS), which was later found to have seeped into the groundwater below. PFOS is listed as a Persistent Organic Pollutant in Annex B of the Stockholm Convention on Persistent Organic Pollutants. Tests at several wells around the Hamilton Airport determined that the level of PFOS in the groundwater, where present, met Health Canada guidelines. However, some well users became uncomfortable relying on the water for drinking purposes and elected instead to purchase drinking water.

In another airport pollution case in Williams Lake, British Columbia, Transport Canada reportedly spent 2.4 million dollars remediating the airport site after pollutants were found in the soil below.

It is unclear how the proposed WSA would prevent similar situations from occurring in the future.

### Groundwater quantity

According to page 27 of the of the legislative proposal *A Water Sustainability Act for B.C.* (the "Proposal"), the provincial standard for water quantity would be that water quantity is sustainable, and the indicators of sustainability would include "groundwater levels", "licensed volume (percent of total natural supply)", and "frequency of water shortage".

It is not clear from the proposed WSA provisions whether any licensing decisions concerning groundwater would have to be made so as to ensure that the replacement rate of any water is at least equivalent to the extraction rate, which would ensure a continued minimum quantity of water.

If the standards in the proposed WSA were applied to a license to extract water from the Cassidy Aquifer it appears that a potential licencee would still be permitted to extract quantities of water that exceeded the aquifer's replacement capabilities, while still being labeled "sustainable".

# Groundwater quality

According to page 27 of the Proposal, the provincial standard for water quality would be that "water is suitable for its designated use", and the regional indicators would include the aquifer intrusion rate and any applicable drinking water quality guidelines.

To put the implications into context using the Harmac Mill and Nanaimo Airport Development examples, it appears that under the proposed WSA development at the Nanaimo Airport could be permitted with reductions in the quality of the groundwater in the Cassidy Aquifer so long as the quality of water was high enough to meet whatever industrial standards would be required of the Harmac Mill per their designated purpose and that the quality of water met the minimum standards for drinking water and no aquifer intrusion would occur.

Outside of the context of the Cassidy Aquifer, it would appear that the minimum requirements for decision makers to consider in making licensing decisions could also result in the loss of *future* drinking water. To illustrate, in the case that an application was made for a licence from a groundwater source that did not presently provide drinking water and did not have any licences currently attached to it, it would appear that the only external standard for measuring the impact of extraction on water quality would be the aquifer intrusion rate. It therefore appears possible that under the proposed WSA the government could issue decisions that would diminish the quality of groundwater to the extent that such water could not be used for drinking in the future.

## Public trust

The greater question that remains is whether the proposed WSA should include a clear statement limiting government discretion so that no decisions could be made that would have the impact of jeopardizing groundwater by drawing down water to unsustainable levels or jeopardizing potential potable water sources.

It isn't clear from the Proposal whether the goal with respect to groundwater management will be to ensure the health of groundwater above other considerations, such as commercial or economic ones. Such a lack of clarity, and a lack of commitment to the public trust doctrine, may have negative consequences.

# Recommendations

Given the above, I might suggest the following:

- 1. A clear right of appeal for domestic users;
- 2. A provision indicating that the water quality could not be diminished to any significant extent, especially where the water is relied upon, or may in the be relied upon in the future, for drinking purposes;
- 3. A provision that would prohibit a decision maker from issuing a licence where the extraction rate is higher than the replacement rate;
- 4. Stronger water objectives that would be binding upon local governments or developments that ensure the protection of land in or around aquifers;
- 5. A provision that clarifies that no decision could be made under the WSA that would have the effect of decreasing the quality or quantity of water such that it might not be usable for drinking water or other purposes by future generations.

## Conclusion

It would appear that under the WSA there would be some form of oversight for groundwater management that would implicate the Cassidy Aquifer. Unfortunately it is not clear from the Proposal whether the provisions would be adequate to protect the Cassidy Aquifer from potential negative impacts. It is possible that stronger water objectives would be needed in order ensure the ongoing health of the Cassidy Aquifer.

Sincerely,

Denelle Lambert Barrister & Solicitor

- Re: Consultations, and the RDN's jurisdiction over 'non-aeronautical lands' of the Nanaimo Airport.

November 2, 2011

Dear Councillors & Directors of the RDN,

Two days ago, I received an invitation to attend 'consultation sessions ...scheduled in November for members of the public' with respect to airport lands. The invitation was sent to me by the consulting firm that the RDN has engaged, with a request to distribute the information to the Board and members of the Mid Island Sustainability & Stewardship Initiative.

As I am running for the position of Director for Area A, in the local elections, I have taken a leave of absence from MISSI. I have however passed the request along to the Acting President, Ms Pauline Hunt. I expect that she will be in touch with CitySpaces Consulting directly.

I also noticed that yesterday the RDN similarly posted such "Notice of Nanaimo Airport Land Consultation ...regarding acceptable future uses on lands owned by the Nanaimo Airport Commission that are not required for airport uses."

I am then writing to you on a personal basis, as a resident of Area A, and potentially as the next Director for Area A.

With regard to the latter possibility I need to therefore inform you that my first order of business, should I be elected, will be to seek postponement of the final report from such 'consultations', pending further outreach and information distribution to the public.

I hope you will agree with this course of action after reading my letter. I also hope you will agree that there is a need for additional information to be distributed if the residents of the RDN are to understand the implications of decisions that may be made on the 'non-aeronautical lands' of the Nanaimo Airport.

I will take this opportunity then to explain why this approach is necessary.

First and perhaps most important, I am concerned that the Area A Official Community Plan (OCP) and the RDN Regional Growth Strategy (RGS) stand to be modified based on the outcome of this consultation. And yet the public have little knowledge of these airport consultations, of the process, timeframe, background or implications.

There is much at stake as far as the public interest is concerned. And only yesterday, in a news article, did we learn that these consultations have been extended to other airports, incorporating their particular interests into the decisions and the proposed agreement with the NAC. So, it would seem that we are in the process of negotiating an Accord that may well set a precedent here and for all airports across the country.

I am concerned at the scope and latitude which this consultation appears to have taken, and just as concerned that the public are the last to know about larger goals for undertaking these consultations. It makes me wonder what else I have not been told with respect to these consultations, as well as future plans for airport lands that may conflict with the public interest.

The Area A OCP was only completed in August, and the RGS is not yet affirmed. The public have yet to review these documents, and yet it is being suggested that they should now provide input into legal, jurisdictional and development considerations that will modify public documents that have not yet seen the ink dry? I question the decision to proceed at this time.

Only 18 months ago the CEO of the Nanaimo Airport Commission (NAC), Mike Hooper, spoke to the Citizen's Committee of the OCP, claiming that the NAC was "arms-length from any government body - federal, provincial or local", and so not accountable to any level of government. What has changed since? Do all airports in BC and across the country hold such opinion, and how will this affect the decisions to be made here?

And, why have the Citizen's Committee of the Area A OCP not been provided with opportunity to review and to have input into the process and issues to be considered before this consultation over airport lands began - as was promised when the airport lands were summarily removed threequarters of the way through the OCP revision?

What's the rush, in other words? I do not understand why it is necessary to rush this consultation process and the public meetings through when the RDN began this process last April. Is there pressure from the NAC, or other airports or vested interests, to see this process completed quickly?

It is most unfortunate that this consultation process has been planned to coincide with local elections. The public have been engaged by the RDN in a number of concurrent RDN meetings and processes; and requests for public participation in Area A and the region is demanding a great deal of volunteer time and resources from community organizations and residents alike. Many of these RDN meetings are directly affected by matters related to the airport lands, and decisions that will follow from these consultations - and yet such information is not being shared.

The Agricultural Area Plan Open House will take place this evening at the Cedar Heritage Centre, for instance. And the report from the RDN Water Services, presented at the October 19<sup>th</sup> public meeting at the Cranberry Community Hall, with respect to the Cassidy / South Wellington groundwater study just completed this summer, is still being circulated to members of local groups for discussion and response. Both have implications with respect to airport lands and their development.

This time is then inappropriate for consultations on the airport, unless the intention is to get minimal public input and attention to the complicated and far-reaching implications of decisions on these matters?

The RDN itself has admitted that the issues surrounding the airport lands were so complicated as to cause a lengthy delay in the OCP proceedings for Area A ...a process that had some 18 citizens immersed in planning and land use decisions over two and a half years.

2

How can the RDN expect that, with only 10 days notice for these consultations, the general public will be able to adequately consider the issues and be prepared to offer thoughtful comments and observations? Especially so since these 'consultation sessions' are only two hours in length, and expected to include a presentation, Q&A and a workshop?

Other RDN processes, presently underway in Area A and the region, provide a full overview of the schedule, publications available for review, and information on each step of the consultation. These airport consultations provide none of this. Why not?

The RDN has allocated some \$50,000 from local taxpayers so that the public might be equally informed, involved and enabled to take part in a fair and honest review of matters pertaining to the 'non-aeronautical lands' of the Nanaimo Airport. This consultation exercise is, ostensibly, not simply a means to reassert previous RDN positions or private interests.

Just over a year ago you will recall that the RDN held public meetings, and distributed information, that proved to be false and misleading with respect to the actual responsibility of the RDN to exert zoning and related jurisdictional authority over the 'non-aeronautical lands' of the Nanaimo Airport.

I note that, on the Board in the Cranberry Community Hall at the Open House for the Area A OCP on September 11<sup>th</sup> 2010, entitled "Section 8.0: Creating a Vibrant Local Economy", point 8.8 addressed the Nanaimo Airport ...

"This section has been re-written to better reflect <u>the RDN's current understanding that it has no</u> jurisdiction over Airport Lands. (my emphasis) This section of the draft recognizes the airport as a regional facility and supports the establishment of a separate process including additional community input outside of the OCP review to identify and respond to the community's concerns with respect to the airport."

After being notified in the spring of 2010 by MISSI, a local non-profit organization, that a court challenge would follow if the RDN continued to assert such a position, and after receiving a legal opinion from the RDN's own lawyers over the summer, the RDN did finally admit in the fall of 2010 - one year ago, to having responsibility for zoning and related jurisdictional authority over the 'non-aeronautical lands' of the Nanaimo Airport.

In this respect the RDN's rationale for summarily removing the airport lands from the Area A OCP, was that "The airport lands DPA has been removed as it is no longer enforceable". This may also come into question with respect to actual legal responsibilities of the RDN.

As you know the RDN has been reticent in providing a copy of it's legal opinion, paid for by taxpayers, and has yet to release such information for public review. It is easy to understand then why current positions the RDN may assert, with respect to zoning and related jurisdictional authority over the 'non-aeronautical lands' of the Nanaimo Airport, may be suspect by members of the public.

The public are seeking non-vested information about the legal and related regulations that might assert zoning and jurisdictional authority over airport lands. As with the preceding OCP's determinations it had been expected, as the present Area A OCP proceeded through revisions, that the NAC was subject to the same laws as that of other lands within the RDN.

It remains to be seen then whether the present 'consultation sessions' and process will reflect the promises that the RDN gave last year, at this time, with respect to engaging the community and

responding to public concerns over plans the Airport Commission may have for 'non-aeronautical lands' of the Nanaimo Airport.

Please note that I have specifically referred to the RDN's responsibilities to address 'nonaeronautical lands of the Nanaimo Airport', since this is not the wording of the notices just circulated and posted by the RDN and it's consulting firm. I would ask for clarification on the upcoming consultation sessions therefore, since the language used simply promises to address "acceptable future uses on lands owned by the Nanaimo Airport Commission that are not required for airport uses." There is a noticeable difference.

With so many questions still unexplained and unresolved then it is surprising to me that the RDN has chosen to hold public consultations, with so little notice, during the municipal elections.

The 'consultation session' for this area, at the Cedar Heritage Centre, is planned for November 10th - the same evening as I and many City and regional residents will be attending an all-candidates meeting at Beban Park, hosted by the Coalition for Democratic Nanaimo. I do not know, but you may wish to check to see if there is also a conflict with the proposed consultation session in Parksville on the 15th.

The net effect of course, of holding these consultations at this time when there are quite a number of competing demands for the public's attention, additional RDN meetings and processes underway that are particular to the local communities as well as to matters that might be addressed by the consultations, is to reduce the attendance and input from those with legitimate and local interest in a fair resolution of matters particular to the airport lands.

Those with vested interests, who are paid to attend and to lobby for partisan decisions, will have no such restraints. Whether intentional or not, it is certainly the case that public attention will be elsewhere, and the results of such consultations will then be skewed in favour of those asserting previous positions held by the RDN and Nanaimo Airport Commission - and as we now learn, others with similar airport-related interests in BC and Canada.

I would suggest then that these consultation sessions, at this time, do not meet requirements for fair review or due process, and so are not in the public interest.

The lack of information about the process and goals for these consultations also raise many questions about the reasons for holding such public meetings at this time.

In my early August reply to CitySpaces Consulting, responding at that time as President of the Mid Island Sustainability & Stewardship Initiative, I indicated that there would be interest to meet if additional information might be provided...

"...with respect to the process and review you are conducting - stakeholders contacted interviewed and participating, geographic area, terms of reference, considerations and priorities, documents reviewed, timeframe, etc. .... I'm sure you know that there is a great deal of interest from the public, especially from the residents directly affected in the south RDN and north CVRD, and I would be interested in the relative weighting you may be incorporating into the decision-making process which I expect will follow the work you are conducting."

It is unfortunate that I did not receive a reply to my request, or further communication about such consultations, until hearing from CitySpaces Consulting two days ago. And then only a notice of public 'consultation sessions', and another invitation to meet. Why no answers to reasonable questions that would assist in providing informed input?

Given the competing interests and events then, it would be my personal observation that the public interest would be best served by a short delay in your consultation process. It is reasonable to expect that the municipal elections, as well as other related and local RDN meetings and processes, might be able to consider such matters as you may be addressing, and to offer important information that would assist in the consultations you have underway. It would be best to wait until such input could be provided.

The general public, local residents and those attending various related RDN meetings, should be provided adequate time to integrate the information you may bring forward in these airport 'consultation sessions', and in turn to provide informed input.

It is not reasonable in my opinion to push through processes, such as those dealing with legal and jurisdictional points of law that may lead to an airport Accord, at a time when the public's attention is elsewhere. Neither is this an ethical or moral means to conduct the public's business.

It is both unfortunate and frustrating to me, and I'm sure to many other local and RDN residents, that matters of such importance to the development and future of the region and mid island area, are being conducted at the time when they are most likely to receive the least public input.

I myself have serious concerns that extend across legal and jurisdictional implications, as well as direct and indirect consequences to rural land use and properties, landowners and residents rights, and of course water and environmental protection. As well, with good reason to believe that precedents may be set, precedents that may be contrary to the public interest, there would seem to be adequate reason to call for a delay in these 'consultation sessions'.

Unfortunately, given the demands I have in running for election, I myself will not be able to participate further in such consultations at this time.

For all of these reasons, and others that I do not have the time to go into at present. I will if elected as Director of Area A, immediately act to postpone the final report from CitySpaces Consulting, pending further outreach and information distribution that will assist the public in understanding the implications of decisions that may be made on the 'non-aeronautical lands' of the Nanaimo Airport.

I would then encourage the RDN to consider the problems inherent in holding public 'consultation sessions' for November 10th and 15th, during our local elections - and to do all you can to ensure that due process is followed.

I believe there should be reasonable opportunity provided so that all interested parties might become informed and able to provide input into these important matters.

If you have questions or wish additional information I will do my best to get back to you in a timely manner. I would similarly appreciate hearing from you at your earliest convenience.

regards,

Laurie Gourlay

1. Gourlay, re. Consultations on the Nanaimo Airport Lands,

ŝ

### **REGIONAL DISTRICT OF NANAIMO**

### BYLAW NO. 899.01

## A BYLAW TO AMEND REGIONAL DISTRICT OF NANAIMO DISTRICT 69 SWIMMING POOL LOCAL SERVICE AREA ESTABLISHMENT BYLAW NO. 899

WHEREAS the Regional District of Nanaimo established the District 69 Swimming Pool Local Service Area by Bylaw No. 889, 1993;

AND WHEREAS the Board wishes to amend the apportionment formula in the bylaw;

AND WHEREAS consent of at least two-thirds of the participants as required under section 802(1)(b) of the *Local Government Act* has been obtained;

NOW THEREFORE the Board of the Regional District of Nanaimo in open meeting assembled enacts as follows:

### 1. Citation

This bylaw may be cited for all purposes as the "Regional District of Nanaimo District 69 Swimming Pool Service Amendment Bylaw No. 899.01, 2013".

#### 2. Amendments

"Regional District of Nanaimo District 69 Swimming Pool Local Service Area Establishment Bylaw No. 899, 1993" is amended as follows:

(1) Section 5 "Cost Recovery" is deleted in its entirety and replaced with the following:

### "5. Cost Recovery

The annual net costs of the service may be recovered by one or more of the following:

- (a) the requisition of money under sections 805 and 806 of the *Local Government Act* to be collected by a property value tax to be levied and collected under sections 805.1(1) and 806.1(1) of the *Local Government Act*;
- (b) the imposition of fees and other charges that may be fixed by separate bylaw for the purpose of recovering these costs;
- (c) by revenues raised by other means authorized under the Local Government Act or another Act;

- (d) by revenues received by way of agreement, enterprise, gift, grant or otherwise."
- (2) Section 6 "Maximum Requisition" is deleted in its entirety and replaced with the following:

## "6. Maximum Requisition

The maximum amount that may be requisitioned under section 803(1)(a) of the *Local Government Act* to recover the annual net costs of the service shall be the greater of Seven Hundred and Seventy Thousand (\$770,000.00) Dollars or \$0.434 per \$1,000 of the net taxable value of land and improvements within the service area."

(3) Section 7 "Apportionment" is deleted in its entirety and replaced with the following:

## **"7.** Apportionment

The costs of providing the service shall be apportioned among the participating areas as follows:

- (a) fifty (50%) percent on the basis of the converted value of land and improvements for hospital purposes; and
- (b) fifty (50%) percent on the basis of the percentage of usage of the service as determined by a survey of usage carried out by the Regional District of Nanaimo.
- (c) the fifty (50%) percent allocation between usage and converted values of land and improvements shall be phased in over five (5) years with ten (10%) percent per year to be incremented to usage as set out in the following table:

| Requisition Year    | Percentage allocation of requisition<br>to be based on converted value of<br>land and improvements for hospital<br>purposes | Percentage allocation of requisition<br>to be based on a survey of usage<br>carried out by the Regional District<br>of Nanaimo |
|---------------------|-----------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------|
| 2014                | Ninety percent (90%)                                                                                                        | Ten percent (10%)                                                                                                              |
| 2015                | Eighty percent (80%)                                                                                                        | Twenty percent (20%)                                                                                                           |
| 2016                | Seventy percent (70%)                                                                                                       | Thirty percent (30%)                                                                                                           |
| 2017                | Sixty percent (60%)                                                                                                         | Forty percent (40%)                                                                                                            |
| 2018                | Fifty percent (50%)                                                                                                         | Fifty percent (50%)                                                                                                            |
| 2019 and thereafter | Fifty percent (50%)                                                                                                         | Fifty percent (50%)                                                                                                            |

Introduced and read three times this 22nd day of October, 2013.

Received the approval of the Inspector of Municipalities this 8th day of November, 2013.

Adopted this day of , 2013.

#### **REGIONAL DISTRICT OF NANAIMO**

#### BYLAW NO. 1358.01

## A BYLAW TO AMEND REGIONAL DISTRICT OF NANAIMO DISTRICT 69 ICE ARENA CONVERSION BYLAW NO. 1358

WHEREAS the Regional District of Nanaimo established the District 69 Ice Arena services by conversion Bylaw No. 1358, 2003;

AND WHEREAS the Board wishes to amend the apportionment formula in the bylaw;

AND WHEREAS consent of at least two-thirds of the participants as required under section 802(1)(b) of the *Local Government Act* has been obtained;

NOW THEREFORE the Board of the Regional District of Nanaimo in open meeting assembled enacts as follows:

#### 1. Citation

This bylaw may be cited for all purposes as the "Regional District of Nanaimo District 69 Ice Arena Amendment Bylaw No. 1358.01, 2013".

#### 2. Amendment

"Regional District of Nanaimo District 69 Ice Arena Conversion Bylaw No. 1358, 2003" is amended as follows:

Section 6 "Apportionment" is deleted in its entirety and replaced with the following:

#### "6. **Apportionment**

The costs of providing the service shall be apportioned among the participating areas as follows:

- (a) fifty (50%) percent on the basis of the converted value of land and improvements for hospital purposes; and
- (b) fifty (50%) percent on the basis of the percentage of usage of the service as determined by a survey of usage carried out by the Regional District of Nanaimo.
- (c) the fifty (50%) percent allocation between usage and converted values of land and improvements shall be phased in over five (5) years with ten (10%) percent per year to be incremented to usage as set out in the following table:

| Requisition Year | Percentage allocation of requisition<br>to be based on converted value of<br>land and improvements for hospital<br>purposes | Percentage allocation of requisition<br>to be based on a survey of usage<br>carried out by the Regional District<br>of Nanaimo |
|------------------|-----------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------|
| 2014             | Ninety percent (90%)                                                                                                        | Ten percent (10%)                                                                                                              |
| 2015             | Eighty percent (80%)                                                                                                        | Twenty percent (20%)                                                                                                           |
| 2016             | Seventy percent (70%)                                                                                                       | Thirty percent (30%)                                                                                                           |
| 2017             | Sixty percent (60%)                                                                                                         | Forty percent (40%)                                                                                                            |
| 2018             | Fifty percent (50%)                                                                                                         | Fifty percent (50%)                                                                                                            |
| 2019 and         | Fifty percent (50%)                                                                                                         | Fifty percent (50%)                                                                                                            |
| thereafter       |                                                                                                                             |                                                                                                                                |

| SUBJECT: | 2014 Proposed Budg                        | et Overview                                                              |                     |

#### PURPOSE:

To provide background information and obtain direction on the proposed 2014 budget.

#### **BUDGET OVERVIEW:**

Local governments are required to prepare five year budget forecasts. These financial plans are intended to guide the development of annual operating budgets. The 2014 to 2018 financial plan which will be presented over the course of the next few months reflects refinements to the forecasts which were initiated in the Fall of 2012 and adopted in March of 2013.

The Regional District of Nanaimo provides and manages a large number of public services including water, sewer collection and treatment, solid waste collection and disposal, public transit, and recreation facilities and services. The primary focus for Regional District budgets is to demonstrate fiscal responsibility within the context of maintaining the service infrastructure, ensuring public health and safety as well as making progress toward achievement of our strategic plan goals.

The Regional District was incorporated in 1967 and is now 46 years old. Many Regional District facilities are more than 30 years old resulting in mechanical and electrical equipment which is at the mid-point or later in its useful life. Annual costs have generally increased over the last several years in order to maintain and extend those useful lives and to maintain required standards for water and wastewater treatment. In some cases outright replacement with newer, more energy efficient equipment is the recommended choice.

The remainder of this report will refer to pages in the Director's budget binders and appendices provided in a separate handout.

#### Year over Year Change

There are now 103 different services which form the Regional District's budget, 34 of those services are shared among multiple member jurisdictions. Examples of multi-jurisdiction regional services are Wastewater Management, Solid Waste Management, Electoral Area Planning, Regional Growth Strategy, Recreation and Parks Services, and Transit.

Sixty-nine services are paid for by a single member jurisdiction. Single member jurisdiction services include Animal and Noise Control Bylaws, Community Parks, and certain Recreation Services.

The following table illustrates the consistency of the 2014 proposed budget with the previous plan – items shown in brackets are comparative values from 2013. The 2014 proposed budget is very consistent with the previous forecast, which reflects the impacts of planned capital upgrades, the predictability of operating expenditures to some degree (e.g. contracted agreements with suppliers) as well as the general accuracy of staff in forecasting year over year changes.

| Number of<br>Services<br>(operational<br>budgets) | Same as forecast | Lower than<br>forecast | Higher than<br>forecast | Consistency with<br>previous plan<br>(Same as or Lower<br>than) |
|---------------------------------------------------|------------------|------------------------|-------------------------|-----------------------------------------------------------------|
| 34<br>Multi-participant<br>Services               | 20               | 9                      | 5                       | 85% (76%)                                                       |
| 69<br>Single participant<br>Services              | 42               | 22                     | 3                       | 96% (93%)                                                       |
| Total<br>103                                      | 64               | 31                     | 8                       | 92% (87%)                                                       |

The consolidated summary of the Regional District's 2014 budget (Appendix A/Binder Pg. 5), projects \$106 million in expenditures in 2014, an increase of 7.0% from 2013. The primary change is an increase in the capital expenditures budget line at this time. Currently the budget includes new projects anticipated in 2014, as well as carry forwards from 2013 (those that are known carry forwards at this time). The value of capital expenditures will increase once final year end results are known and costs for carry forward projects will be re-budgeted as 2014 expenditures.

Approximately 66% (\$68 million) of total 2014 expenditures are applied to operating costs, 8% of the budget goes toward existing long term debt, 4% will be contributed to various capital reserves with the remainder applied to capital replacements and projects in 2014 (22%) (water/wastewater/solid waste infrastructure, building upgrades, equipment and vehicles).

The total revenues (excluding prior year surpluses) are \$102 million versus \$95 million in 2013. The majority of the increase is due to higher grant revenue funding specific to capital projects in 2014. New grant funded projects include the CNG facility at Transit (\$1.9 million) and Wastewater projects in the north and south (\$2.5 million).

The 2013 to 2017 financial plan forecast for property tax revenues in 2014 of \$40 million, is an overall change of 6.3%. The proposed 2014 budget is consistent with the overall forecast at 6.2% and includes a new utility service for Hawthorne Rise Sewer which was not included in the previous plan.

## Year over Year Changes (Appendix B/Binder Pg. 1)

The year over year change has been summarized into three categories:

- New/Changed Service Levels;
- Changes from Other Jurisdictions;
- Changes for Existing Services.

#### New/Changed Service Levels - 4.0% (Appendix L4/Binder Pg. 14)

| Transportation Services              | 603,000   | \$200,000 to reserve for downtown exchange,<br>\$174,000 new debt servicing for CNG,<br>\$144,000 for CNG shop upgrade, \$85,000<br>annualization of 2013/14 expansion |
|--------------------------------------|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Southern Community Wastewater        | 393,480   | Preliminary design secondary treatment/<br>marine outfall accelerated schedule                                                                                         |
| Northern Community Wastewater        | 115,000   | Additional capital projects and maintenance of reserve fund transfers for 2019 expansion                                                                               |
| Duke Point Wastewater                | 30,000    | Pump upgrade to Duke Point Pump Station                                                                                                                                |
| Drinking Water/Watershed Protection  | 26,300    | Increase from municipal participation/changed rates                                                                                                                    |
| Grants in Aid                        | 68,000    | Remainder of ICF increase for grant, offset by<br>Strategic Community Investment Funds in<br>2013                                                                      |
| Northern Community Recreation        | 11,180    | Arrowsmith Community Enhancement Society grant increase                                                                                                                |
| Electoral Areas                      | 66,450    | Elections costs                                                                                                                                                        |
| Total for New/Changed Service Levels | 1,313,410 |                                                                                                                                                                        |

## Other Jurisdictions - 0.6% (Appendix L5/Binder Pg.15)

While not in itself representing a large change relative to overall tax revenues, the amount for Other Jurisdictions is an increase of \$188,734 based on preliminary estimates. Both E911 services are impacted by costs related to the new RCMP contract. The Vancouver Island Regional Library levy (6.3% increase) includes impacts related to their long-term facilities and operations plans.

#### Existing Services - 1.4% (Appendix L6/Binder Pg.16)

The cumulative property tax change year over year for Existing Services is \$497,255 or 1.4%. The bulk of this change is related to impacts of declining prior year carry forward surpluses and operating cost increases in areas such as transit, regional parks, recreation facilities and wastewater treatment.

#### Summary of Tax Revenues/Municipal Participation Agreements (Appendices C1 to C3/Binder Pgs. 2-4)

These pages list each individual service outlining the proposed 2014 requisition and summarizing the change from 2013.

#### BUDGET SPECIFICS:

#### Corporate Services (Appendices D1 to D2 /Binder Pgs. 45-61)

#### Corporate Administration

This department carries out the administrative and legislative work of the Regional District. Its sections include the Chief Administrative Officer, Legislative Services, Human Resources, Financial Services, Information Technology & GIS Services, and Energy & Sustainability.

The requisition for Corporate Administration increases as forecast to \$848,910, an increase of \$32,650 or 4% (Appendix D1/Binder Pg. 45). This requisition is used to support the Legislative Services component of the budget which covers Board remuneration, web site development and maintenance, Regional District publications such as the Regional Perspectives and Electoral Area Updates as well as allocations of support staff costs for those activities. At the present time the expenditures for Legislative Services total \$1,075,135 (4% increase from 2013) with the remainder of the costs funded by interdepartmental recoveries.

The Grants in Aid portion of the requisition is currently \$533,000, an increase of \$59,140 or 12.5%. The increase relates to the remainder of Island Corridor Foundation (ICF) grant funding approved at the November 27, 2012 Board Meeting conditional on ICF obtaining an agreement with VIA Rail to re-establish passenger service on Vancouver Island.

Overall expenditures for Corporate Administration increase by 3.2% over 2013 to \$5,696,335. This includes the Legislative Services spending noted above as well as expenditures for Information Technology, GIS/Mapping, Finance, Human Resources, Energy & Sustainability and General Administration.

The Corporate Administration capital budget totals \$394,950. This includes \$276,000 for centralized computer services equipment replacements, a fleet vehicle replacement and the purchase of new software tools for budgeting and financial reporting.

#### Electoral Areas Administration/Building Policy & Advice

The requisition for Electoral Area Administration is forecast at \$385,075, an increase of \$18,335 or 5.0% over 2013. This is \$3,670 (1%) less than forecast. The District of Lantzville contracts with the RDN for the Building Policy & Advice portion of this budget contributed \$17,225 to this area as well. This budget provides funds for Local Government Elections, Electoral Area Director attendance at annual conferences, Electoral Area Director allowances, Electoral Area newsletters, as well as the costs of administering building policy, information and advice services in the Electoral Areas.

In 2009, the Board approved a separation of the Building Policy & Advice component of the budget from direct building inspection services which are deemed recoverable through permit fees only. The projections presented at that time indicated it would take about five to six years to fully absorb the Building Policy & Advice costs and develop the requisition base for it. To support the costs of Building Policy & Advice, \$158,000 will be transferred from Building Inspection net revenues.

## Fire Departments (Appendices E1 to E3/Binder Pgs. 68-80)

The Regional District funds fire protection services through service contracts with incorporated Societies or other local governments. The list below identifies the type of contract arrangements:

| Fire Department Name           | Contract Type    | Fire Department Name     | Contract Type        |
|--------------------------------|------------------|--------------------------|----------------------|
| Bow Horn Bay Volunteer Fire    | Society Contract | Cassidy Waterloo Fire    | Municipal Contract   |
| Department                     |                  |                          | (Cranberry Fire      |
|                                |                  |                          | Department)          |
| Coombs Hilliers Volunteer Fire | Society Contract | Wellington Fire          | Municipal Contract   |
| Department                     |                  |                          | (City of Nanaimo)    |
| Errington Volunteer Fire       | Society Contract | Parksville Local         | Municipal Contract   |
| Department                     |                  |                          | (City of Parksville) |
| Extension Volunteer Fire       | Society Contract | French Creek Fire (up to | Municipal Contract   |
| Department                     |                  | Drew Road)               | (City of Parksville) |
| Dashwood Volunteer Fire        | Society Contract | French Creek Fire (Drew  | Municipal Contract   |
| Department                     |                  | Road to Qualicum Beach)  | (Town of Qualicum    |
|                                |                  |                          | Beach)               |
| Nanoose Bay Volunteer Fire     | Society Contract |                          |                      |
| Department                     |                  |                          |                      |

Tax requisitions for these operating entities are proposed to increase on average 4% over 2013. All of the Societies are facing the challenges of aging infrastructure and volunteer turnover which has an impact on training and equipment costs. In an effort to retain volunteers, fire departments have steadily increased per diem rates for attending practices and fires.

The following amounts have been included in 2014 based on preliminary discussions with departments regarding capital requirements for vehicles, buildings and equipment. The amounts will largely be drawn from reserve funds for financing these purchases.

| Coombs Hilliers                 | \$30,000 (ventilation equipment)                     |
|---------------------------------|------------------------------------------------------|
| Dashwood                        | \$100,000 (design development – Hobbs Road firehall) |
| Errington                       | \$100,00 SCBA replacements, \$30,000 (building       |
|                                 | addition)                                            |
| Bow Horn Bay                    | \$400,000 satellite firehall in Spider Lake area -   |
|                                 | \$300,000 from borrowing and \$100,000 from reserves |
| Coombs Hilliers and Nanoose Bay | \$400,000 each for pumper truck replacements         |

## Strategic and Community Development (Appendices F1 to F3/Binder Pgs. 82-113)

## Electoral Area Current & Long Range Planning

The requisition for community planning services is projected at \$1,396,000 – a change of \$40,660 or 3.0%. This is \$13,500 (1%) less than forecast. Initiatives for 2014 include the completion of the rezoning and Phased Development Agreement for Schooner Cove and Lakes District, continuing the Nanaimo Airport planning process, completion of the Secondary Suites review, implementation of the Agricultural

Area Plan, rezoning of Regional Parks to appropriate zoning, and projects related to the implementation of the Electoral Area "A" OCP and Cedar Main Street Plan.

## Regional Growth Management

This budget supports the development, maintenance and implementation of the growth management strategy. The tax requisition for this service will increase by \$8,100 to \$413,040 which is 5.5% lower than forecast. Staff vacancies have resulted in a larger carry forward surplus that is decreasing the planned tax requisition change. The next several years will be focused on recommended studies and action items contained within the adopted strategy. The 2014 budget includes funds (\$65,000) for a Commercial Needs Assessment and the Airport Planning Process.

## Energy & Sustainability

This department has total expenditures of \$280,600 and is funded partially through the General Administration service and partially by interdepartmental recoveries from Strategic and Community Development. The activities of the department are overseen by the General Manager of Strategic and Community Development.

In 2013 departmental communications, including newsletters and learning events for staff and the general public, targeted all households in the Region. The Regional District, as a signatory to the Climate Action Charter, achieved the status of carbon neutrality at the end of 2012. Through the work of this department, an estimated 7,000 tons of carbon dioxide emissions reductions have been identified and \$48,000 was invested in Green Building incentives in 2013.

Targets for 2014 include continued focus on tracking corporate and community energy use, and identifying and implementing practical approaches within the organization and across RDN communities to conserve energy and other resources, reduce emissions, lessen expenditures on energy and enhance local self-sufficiency. This information will be key to understanding what expenditures would be required to maintain the carbon neutral objective of the Climate Action Charter as well as the implications of investing in regional and corporate emission reduction projects as an alternative to purchasing carbon offsets.

The Energy & Sustainability service also manages the Northern Community Economic Development program with \$50,000 disbursed in 2013 through grants to organizations in the Northern Communities.

## **Building Inspection Services**

Building permitting and inspection services are fully funded by permit revenues and there is no tax requisition. Permit revenues for 2014 are forecast at \$981,000, an increase of 0.5% over the 2013 budget. Actual 2013 revenues have exceeded the \$960,000 budget (\$1 million @ October 31) with an estimated 610 permits (2012: 620 permits) and \$80 million in construction values.

The department focuses continuously on streamlining permit processes and has achieved a 95% success rate for issuance of single family residential permits within three weeks of application. 2014 projects include improved electronic records storage initiatives to transfer paper records to digital and to allow mobile access to Cityview for inspectors.

## Emergency Planning

The tax requisition is forecast to increase by \$8,700 or 3.5% to \$257,327, as forecast. This amount is supplemented by a \$21,485 contract with the District of Lantzville to provide their Emergency Planning services. The operating budget for the department is a base of approximately \$280,000. Previously, Provincial grant funds provided through the Union of BC Municipalities covered more than 50% of the costs of Hazard Vulnerability studies, Community Wildfire Plans and fuel management strategies covering most of the Regional District. Those program funds have now been considerably reduced adding to the cost of completing actions identified in those plans. Particularly affected will be fuel management work in interface areas of the Regional District. There is no clear indication at this time, how some of that future work will be completed within the current base budget.

The department has been restructuring its Emergency Social Services (ESS) and Neighbourhood Emergency Preparedness (NEP) volunteer programs and has moved to an alternative approach which utilizes a volunteer coordinator contract providing supervision to ESS teams in District 68, as well as coordinating the Neighbourhood Preparedness Program in all Electoral Areas and Lantzville. The 2013 budget for volunteer coordination services includes \$32,000 for this program.

The focus of capital expenditures since 2010 has been the installation of backup generators in emergency reception centres. Regional District purchased generators have now been installed at the Lighthouse Community Centre (Electoral Area 'H'), the Rollo Seniors Centre on Gabriola Island and the Cedar Reception Centre. These installations were previously funded in part by JEPP grants which are no longer available. The increase to the tax requisition incorporates maintenance of this capital program for generators (2014 Arrowsmith – Electoral Area 'F' and 2015 Gabriola Island – Electoral Area 'B').

The RDN also funds land and marine search and rescue groups in District 68 for approximately \$41,300 per year including paying lease costs for space used by the Nanaimo Search & Rescue Society.

## Bylaw Enforcement (Appendices G1 to G2/Binder Pgs. 97-109)

Bylaw enforcement staff costs are recovered through allocations to other budgets including Noise Control (A,B,C,E,G, Lantzville), Animal Control (All Electoral Areas), Hazardous and Unsightly Premises (A,B,C,E,G,H and Lantzville), Planning, Building Inspection and Parks. The District of Lantzville receives bylaw enforcement services under contract with the Regional District and contributes \$6,800 to this budget.

## Recreation & Parks Services (Appendices H1 to H3/Binder Pgs. 116-146)

The major departmental requisitions under this division are as forecast and range between 0.0% to 8.5% as follows:

| Regional Parks Operations       | As forecast          | 8.5% |
|---------------------------------|----------------------|------|
| Regional Parks Capital          | As forecast          | 0.0% |
| Northern Community Recreation   | Higher than forecast | 6.4% |
| Oceanside Place Arena/Multiplex | As forecast          | 3.5% |
| Ravensong Aquatic Centre        | As forecast          | 2.0% |

The requisition for Northern Community Recreation is higher than forecast because of the additional funding for the Arrowsmith Community Enhancement Society (ACES) and it reflects increases necessary to sustain the current level of service in the face of declining operating surpluses from prior years. The 2013 surplus estimate is \$40,487 vs 2012 which was \$73,342. Wherever practical, Regional District budgets draw on prior year unexpended operating funds to reduce potential tax increases. The two operating facilities (Oceanside Place and Ravensong Aquatic Centre) require a significant financial commitment for debt servicing, maintenance and capital renewal, and operate very close to budget.

Northern Community Recreation includes transfers to the Arrowsmith Community Enhancement Society (\$66,950) for their programs, and to Qualicum Beach and Parksville (\$295,920 = 2014 estimate) for sports field maintenance. Operating revenues at \$217,130 make up 18% of operating expenditures in this area net of these transfers.

The \$1,069,090 requisition for Southern Community Recreation is largely made up of a \$1,032,075 transfer to Nanaimo for facilities and sports fields and is based on an average of usage surveys performed every five years.

## Regional Parks Operating and Capital

The operating budget related to Regional Parks has an increased tax requisition largely due to a smaller carry forward surplus being brought forward from 2013. The prior year surplus is \$207,000 less than the 2012 carry forward resulting in a need for a larger tax requisition amount of \$83,890 (8.5% increase) to maintain operating budgets. The requisition for the capital section of the budget is funded by a \$13.00 per property parcel tax. 2013 included an extra pay down of debt for the Moorecroft Regional Park purchase. In 2014, the Moorecroft debt payment is reduced to the amount required for repayment of the remaining debt over 20 years and other funds are being allocated to a variety of capital projects such as Benson Creek Falls stairs and access upgrades, the San Pareil Boardwalk, and the Horne Lake Regional Park.

## Electoral Area A & B Recreation Services

Both requisitions reflect directions provided by the individual Electoral Areas.

## Community Parks (Appendices I1 to I3/Binder Pgs. 132-140)

All requisitions reflect recommendations and priorities provided to staff and the Regional Board through Parks & Open Space Advisory Committees.

#### Regional & Community Utilities (Appendices J to J2/Binder Pgs. 149-192)

The tax requisitions within this division are consistent with the current financial plan. Requisitions for Northern Wastewater Management, and Liquid Waste Management Planning are as forecast. The requisition for Southern Wastewater Management is higher than the forecast due to the accelerated schedule for marine outfall repairs as well as the provincial requirements to upgrade to secondary treatment by 2018. The Drinking Water and Watershed Protection service requisition is increased as a result of new municipal participation.

There is a high degree of operating and capital infrastructure activity associated with this division. The following is a very brief summary of the budget highlights for these services:

| Southern Community Wastewater         | Total expenditures \$15.5M<br>Operating expenditures \$5.5M; Capital program \$10M<br>\$3.8M of capital plan funded by Development Cost Charges                                                                                                                           |
|---------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Northern Community Wastewater         | Total expenditures \$5.2M<br>Operating expenditures \$3.4M, Capital program \$1.8M<br>\$170,000 of capital plan funded by Development Cost Charges                                                                                                                        |
| Drinking Water & Watershed Protection | Total expenditures \$542,155<br>\$80,000 – Professional Fees –for regional water "budgets", data<br>collection and watershed management planning<br>Continued support (\$109,000) to Team WaterSmart education<br>program<br>\$62,000 for rainwater harvesting incentives |

## <u>Water Services</u>

Significant initiatives in 2014 include the capital work related to the pump station upgrades in the Nanoose Peninsula Water Service and the ongoing work for the fire protection improvements to the San Pareil Water Service. Elector assent was obtained in November 2011 to borrow up to \$1.36 million to make improvements for fire protection purposes within the San Pareil Water Service area. In 2014 a small parcel tax is being proposed for the San Pareil Water Service to recover the interim financing cost to date.

Tax requisition changes for the operational water service areas vary from 2.0% (Decourcey, Melrose, Whiskey Creek) to 10% (Nanoose Peninsula). The Nanoose Peninsula budget reflects an anticipated \$900,000 in capital expenditures for system upgrades. Also, these values generally are a result of decreasing year end surpluses which have been used to date to reduce the full impact of balancing revenues to the expenditures required to maintain the current levels of service. Additionally, some of these requisitions are quite small so a relatively small dollar amount can create a large percentage increase, e.g., Surfside Water's increase of \$394 is a 3% increase to the \$13,145 requisition.

## Transportation and Solid Waste (Appendices K1 to K1/Binder Pgs. 197-206)

## Transportation Services

The Southern and Northern Community Transit Service requisitions are forecast to increase by \$708,440 (10.0%) and \$26,520 (3.0%) respectively. Both increases are as forecast and relate to major capital projects related to Compressed Natural Gas (CNG) buses and the purchase of the land for a new downtown exchange.

A 5,000 hour expansion of the conventional system and 3,750 hours expansion in the custom service was completed in March/April 2013. The service expansion occurred in both the Northern and Southern Community service areas and included hourly service between Parksville and Nanaimo, and service every one to two hours between Parksville and Qualicum. Because of the major capital work proposed for 2014, there is no service expansion budgeted for the 2014 year; however, the budget does reflect the annualized cost of the expansion that began March 2013.

A major risk to the operating budget continues to be the lack of stability in fuel prices. Fuel costs represent 7% of the expenditures in the 2013 budget at approximately \$1.6 million. The budget includes \$1.26 per litre per the BC Transit agreement; however, a contingency is also included that allows for a maximum fuel price of \$1.47 per litre. Conversion of half of the fleet to CNG will reduce volatility in this area and lobbying by Vancouver Island representatives for a province-wide CNG rate could result in lower costs for fuel.

## Solid Waste Management

The Solid Waste Management service tax requisition rises by 2% or \$6,975 as forecast. The tax requisition of \$355,855 partially supports planning and enforcement activities related to disposal bans, illegal dumping and waste stream licensing. The total budget for these activities is \$532,000.

Total 2014 expenditures for this service are \$9.9 million. Tipping fee revenues are forecast at \$8.6 million and capital reserves of \$830,000 will be used to support the capital program. Tipping fees for 2014 reflect the newly approved rate of \$125 per tonne versus the \$120 per tonne rate in 2013.

Tipping fees have steadily declined (excluding rate changes) since reaching a peak of \$8.5 million in 2008. This decline has occurred both as a result of additional disposal bans (commercial and residential organics for example) as well as the recent slower economy. 2013 revenues are projected to be approximately \$6.8 million versus the budget estimate of \$7.8 million and below the 2012 final revenues of \$7.8 million.

The regional landfill site will be the focus of significant improvements in the coming years. Design work to convert a portion of the original landfill to a nature park amenity is underway, with construction anticipated in 2015.

## Garbage & Recycling Collection

The food waste separation program has been underway since 2011 with food waste collection occurring weekly throughout most of the Regional District and garbage and recycling occurring every other week (one week food waste/recycling, one week food waste/garbage collection). The collection rate for 2014 will decrease from \$148 (after a 10% prompt payment discount) to \$130 per household as a result of the new Multimaterial BC program.

#### **Resource Implications Summary**

Full time equivalent staffing levels are being held at 2013 amounts in order to hold requisition increases to a minimum level. To help achieve business plan objectives for 2014, additional staffing needs are being met through temporary positions only such as for the administration work required under the new MMBC contract for Garbage & Recycling which is funded by MMBC transfers and the work for the E&N Trail project.

## New 2014 funding requests

The 2014 budget currently does not include the following requests:

- Oceanside Hospice Society \$60,000 (request for ongoing annual operational funding)
- Nanaimo Hospice Society \$25,000 (request for capital funding for new building)
- Nanaimo & Area Land Trust \$30,000 (annual request anticipated amount will be attending January meeting)
- Lighthouse Country Marine Search & Rescue Society \$5,000 (ongoing annual funding request to support program)
- Oceanside Community Policing \$29,220 (\$24,220 for community policing office & \$5,000 additional funding for Citizens on Patrol program)
- Nanaimo Victim Services \$2,500 (additional funding request to add to current \$5,000 in annual funding)
- Nanaimo Rail Trail Partnership Group \$15,000 (request for seed funding)

Additional information related to these requests will be provided to the Board in January for inclusion in budget deliberations over the next few months and will be added if approved.

There has been some discussion at the Board about reducing the tax requisition increases to levels closer to annual inflation amounts particularly as they relate to existing services. Because of the way Regional District services are established and funded where very few services are actually funded by all residents of the RDN, it is difficult to identify where to make adjustments to achieve an equitable sharing of reductions to all areas. As noted above the cumulative property tax change year over year for Existing Services is \$497,255 or 1.4%.

Any changes to tax requisition amounts either for increases or decreases are considered within the context of maintaining the long term plans for services and infrastructure replacements. The preliminary budget as presented represents the Board's strategic priorities as established in the RDN Long Range Financial Plan. Further refinement of the 2014 budget and 2014 – 2018 Financial Plan for any recommended reductions as well as the requested additions noted above will require prioritized direction to staff from the Board.

## ALTERNATIVES:

- 1. Receive and approve the proposed 2014 budget as presented and proceed to finalize the 2014 to 2018 financial plan.
- 2. Receive this report for information, provide direction to staff for recommended amendments or further analyses and forward the preliminary plan to a Special Committee of the Whole for further discussion.

## FINANCIAL IMPLICATIONS:

The Regional District of Nanaimo's budget affects taxpayers differently depending on where they own property in the Regional District.

## Member Participation (Appendices L1 to L3/Binder Pgs. 11-13)

These schedules summarize the financial implications for each of the Regional District's member jurisdictions for those services which affect all property taxpayers in their jurisdiction – these services are referred to as 'general' services. There are many unique cost sharing formulas for Regional District services which reflect decisions by the Regional Board regarding an appropriate measure of benefit for a particular service. Property assessments continue to be the most common approach, however in recent years' formulas based on a combination of usage and assessment, usage only, population and assessment and flat rate taxes have been approved for some services.

Referring to Appendix L1(Binder Pg. 11) for an example of the information in this Appendix, the City of Nanaimo would have a 2014 requisition of \$15.0 million, an increase over 2013 of \$1.18 million. The primary reasons for the change are the capital/expansion programs for transit and wastewater. There is \$1,073,206 identified as New/Changed Service Levels for Nanaimo as shown on Appendix L-4 (Binder Pg.14).

Appendices L4 to L6 (Binder Pgs. 14-16) present in more detail the services with significant changes which are summarized under the three headings New/Changed Service Levels, Other Jurisdictions and Existing Services.

Appendix M (Binder Pg. 17) shows for each jurisdiction, the estimated year over year change in general services property taxes for properties valued between \$100,000 and \$400,000, including the Regional Parks and Drinking Water/Watershed Protection parcel taxes.

The remaining pages of the handout Appendices N1 to N11 (Binder Pgs. 21-42) are three year historical summaries for each member jurisdiction showing the details of participation in the general services applicable to that jurisdiction. The 2014 preliminary budget information as discussed here will also be available on the RDN website for public access.

Local service tax requisitions – those for fire, water, sewer and streetlighting – are unique to an individual property owner and often have a greater impact than all other services combined. These requisitions and tax rates are shown below the general services table. As outlined earlier, fire protection requisitions continue to increase in order to maintain vehicle and equipment replacement programs and to train and retain qualified volunteers.

#### STRATEGIC PLAN IMPLICATIONS:

The 2014 Budget provided represents the consolidated cost of implementing the Strategic Goals and Actions for each of the RDN's five Action Areas:

- The Regional Federation;
- Strategic and Community Development;
- Transportation and Solid Waste;
- Regional and Community Utiliities; and
- Parks and Recreation

These Action Areas reflect the traditional organizational structure of the RDN, and each manager and general manager is tasked with identifying how projects and programs planned for 2014 are consistent with the Board Strategic Plan.

#### SUMMARY/CONCLUSIONS:

This report and appendices outline the changes arising from the proposed 2014 budget as they affect each member jurisdiction, as well as describing some of the major initiatives planned in 2014. The 2014 proposed budget is largely consistent with the forecasts developed for the 2013 to 2017 financial plan.

Improvements to the regional transit system represent the single largest change in tax requisitions year over year, affecting taxpayers in the four municipal jurisdictions as well as Electoral Areas A, C, E, G and H.

Municipal member jurisdictions will contribute between 3.2% to 8.6% more for Regional District services in 2014. Taxpayers residing in Electoral Areas will see tax rates change by between 1.3% and 4.6%. Electoral Areas A, B and C (School District 68) will see general services property taxes rise between \$15 and \$39 for a property valued at \$400,000. Taxpayers residing in Electoral Areas E, F, G and H (School District 69) will see general services property taxes rise between \$7 and \$15 for a property valued at \$400,000. These amounts exclude local service tax requisitions for services such as fire, water, sewer and streetlighting which are unique to an individual property owner and often have a greater impact than all other services combined.

Should the Board wish to consider further adjustments to the 2014 budget it is recommended that this report be received, staff be given direction on requested analyses or adjustments and the budget be forwarded to a Special Committee of the Whole meeting in January, 2014.

#### **RECOMMENDATION:**

That the report on the proposed 2014 budget be received and the requested additions from community groups as well as any other requested analyses or recommended adjustments for the 2014 budget be further reviewed at a Special Committee of the Whole meeting to be scheduled in January, 2014.

**Report Writer** CAO Condurren

**Director Concurrence**

#### PURPOSE

To make text and mapping amendments to "Regional District of Nanaimo Land Use and Subdivision Amendment Bylaw No. 500.385, 2013" to address concerns raised by the community, and to update the Board on the status of the Lakes District and Schooner Cove rezoning applications.

#### BACKGROUND

On November 12, 2013 the Regional Board at its Special Board meeting gave first and second reading to Amendment Bylaws No. 500.384, 500.385, and 500.388 to allow the rezoning of the subject properties in Lakes District and Schooner Cove and to amend the subdivision servicing standards for community water and sewer to facilitate development in accordance with the Neighbourhood Plans. The proposed amendments for Lakes District would allow residential development in a range of densities and housing types with some mixed-use/commercial development. The Schooner Cove amendments would allow the development of a waterfront mixed-use village with a marina and multiple residential development.

The draft bylaws were presented to the community at the Public Information Meeting held on September 23, 2013. No concerns regarding the Schooner Cove Amendment Bylaw were raised at that time. However, following introduction of these bylaws, staff received communications from residents expressing their concerns about the proposed uses, building height, and parcel coverage affecting the marina portion of Schooner Cove (see Attachment 4). It was identified that the proposed zoning provision would not reflect the intent of the conceptual development plans presented by the applicant through the neighbourhood planning process. The applicant proposes to revise Amendment Bylaw 500.385 (Attachment 1) in order to address these concerns as outlined in the Land Use Implications section of this report.

A Phased Development Agreement (PDA) and a Memorandum of Understanding (MoU) are also proposed in relation to the proposed developments; however, the PDA and MoU are not ready for Board consideration at this time as staff are working with the applicant to negotiate the remaining issues and finalize the terms of the PDA and MoU in order to introduce a PDA Authorization Bylaw.

## ALTERNATIVES

- 1. To receive this report with the proposed amendments to "Regional District of Nanaimo Land Use and Subdivision Amendment Bylaw No. 500.385, 2013", rescind second reading, and give second reading to Amendment Bylaw 500.385, 2013 as amended.
- 2. To not rescind the seconding reading of "Regional District of Nanaimo Land Use and Subdivision Amendment Bylaw No. 500.385, 2013".

### LAND USE IMPLICATIONS

## **Zoning Implications**

The propose changes to the November 12, 2013 draft of Amendment Bylaw 500.385 as outlined in Attachments 2 and 3 of this report would not alter the development theme for Schooner Cove but would address specific concerns raised by the community with regards to the marina area (proposed CD45-MA sub zone), including:

- To reduce the maximum permitted height for wind turbines, which are not proposed currently, but could be developed in the future;
- To remove "assembly use" from the permitted principal uses;
- To reduce the maximum permitted height for buildings and structures from 11.0 m geodetic or 3 storeys to 7.0 m geodetic elevation or 1 storey, whichever is less, notwithstanding one jib crane hoist shall not exceed 11.0 m geodetic elevation and floating buildings and structures shall not exceed 5.0 m measured from the surface of the water;
- To reduce the maximum parcel coverage from 10% per parcel and up to 5% for individual buildings to a maximum of 5% per parcel and 1% for individual buildings; and,
- To align the boundary between the Marina (CD45-MA) and Village Mixed Use (CD45-MU) sub-zones with the boundary between Area's 'A' and 'B' on the Maximum Building Height Plan.

The proposed revisions are consistent with the intent of the Schooner Cove Neighbourhood Plan and address concerns raised by residents by ensuring permitted development would be more consistent with conceptual development plans as presented to the public through the Neighbourhood Planning and Zoning Amendment processes.

### Applications Review

As noted in the November 12<sup>th</sup> staff report, the proposed PDA Authorization Bylaw and MoU are not ready for the Board's consideration. A revised PDA was submitted on November 19<sup>th</sup>, and staff continue to negotiate the terms of the PDA and MoU. The following issues remain central to these negotiations:

- Ensuring certainty with regard to the developer's obligations to stormwater management ; and,
- Establishing certainty with regard to the developer's obligations for wastewater treatment expansion.

Once the PDA and MoU terms have been resolved, a PDA Authorization Bylaw will be introduced to the Board for its consideration, and a public hearing for the zoning Amendments Bylaws (500.384, 500.385, and 500.388) and the PDA Authorization Bylaw would be scheduled concurrently. A resolution on these matters is fundamental to ensuring that the PDA clearly articulates the provision of community

amenities and the advancement of development phasing in accordance with the policies and objectives of the Lakes District and Schooner Cove neighbourhood plans.

## Public Consultation Implications

If the Board decides to proceed with the recommendations of this report, this will ensure that the public has adequate time to be made aware of the proposed revisions to the Bylaw prior to a public hearing being scheduled. A hearing for the proposed amendment bylaws (500.384, 500.385 and 500.388), including revisions to Bylaw 500.385 if granted second reading, will be scheduled concurrently with a public hearing for the PDA Authorization Bylaw. Staff will continue to work with the applicant to resolve the remaining issues and ensure the public interest is addressed in accordance with the neighbourhood plan policies prior to scheduling the statutory hearing.

## Sustainability Implications

The proposed revisions to Amendment Bylaw No. 500.385 would result in the following sustainability implications:

- The reduction in the allowance for parcel coverage and maximum building height will increase opportunities to protect ocean views; and,
- The change to not allow wind turbines to exceed the maximum permitted building height, in the marina area only, addresses the community's concern about visual impacts while still allowing smaller wind turbines to be located in the marina area. Taller wind turbines, if proposed in the Marina Zone (CD45 – MA), would require a development variance permit application through which the merits and impacts of such a structure could be evaluated at that time.

### SUMMARY/CONCLUSIONS

On November 12, 2013 the Regional Board of Directors gave second reading to Amendment Bylaw 500.385 to allow the proposed redevelopment of Schooner Cove. Since that time, residents in the Schooner Cove area have requested revisions to the Amendment Bylaw, particularly for the regulations affecting the marina area. If the Board chooses to proceed with the changes as recommended in this report to Amendment Bylaw 500.385, second reading would be rescinded and the Bylaw would be given another second reading. This will allow the public to be made aware of the changes and to have sufficient time to review the revised Bylaw prior to a public hearing being scheduled.

Staff are also negotiating the terms of the Phased Development Agreement (PDA) and Memorandum of Understanding (MoU) which are associated with the proposed zoning amendments. Central to these negotiations is the need to resolve the proposed project phasing, the provision of community amenities such as regional park dedication and commitments to waste water treatment expansion and storm water management. Once the PDA and MoU terms have been resolved, a PDA Authorization Bylaw will be introduced to the Board for its consideration. A public hearing for the zoning Amendments Bylaws (500.384, 500.385, and 500.388) would be scheduled concurrently with a hearing for the PDA Authorization Bylaw.

### RECOMMENDATIONS

- 1. That second reading of "Regional District of Nanaimo Land Use and Subdivision Amendment Bylaw No. 500.385, 2013" be rescinded.
- 2. That "Regional District of Nanaimo Land Use and Subdivision Amendment Bylaw No. 500.385, 2013" be amended as set out in Attachment 2 of the staff report.
- 3. That "Regional District of Nanaimo Land Use and Subdivision Amendment Bylaw No. 500.385, 2013" be amended as set out in Attachment 3 of the staff report.
- 4. That "Regional District of Nanaimo Land Use and Subdivision Amendment Bylaw No. 500.385, 2013" be read a second time as amended.

### Attachment 1 Amendment Bylaw No. 500.385 as introduced on November 12, 2013

### REGIONAL DISTRICT OF NANAIMO BYLAW NO. 500.385

# A Bylaw to Amend Regional District of Nanaimo Land Use and Subdivision Bylaw No. 500, 1987

The Board of the Regional District of Nanaimo, in open meeting assembled, enacts as follows:

- A. This Bylaw may be cited as "Regional District of Nanaimo Land Use and Subdivision Amendment Bylaw No. 500.385, 2013".
- B. "Regional District of Nanaimo Land Use and Subdivision Bylaw No. 500, 1987", is hereby amended as follows:
  - 1. Under **PART 3 LAND USE REGULATIONS, Section 3.1 Zones** by adding the following Zone Classification and corresponding short title after Section 3.4.143 Schooner Bay Manor Seniors Mobile Home Park Comprehensive Development Zone (CD43):

Schooner Cove Comprehensive Development Zone (CD45)

- 2. By adding Section 3.4.145 (CD45) as shown on Schedule '3' which is attached to and forms part of this Bylaw.
- 3. By rezoning the lands shown on the attached Schedule '1' and legally described as
  - a. Lot 1, District Lot 78, Nanoose District, Plan 28544;
  - b. Lot 1, District Lot 78, Nanoose District, and District Lots 2085, 2086, 2087, 2088 and 2089 Nanaimo District Plan VIP87121;
  - c. Lot 1, District Lot 2090 Nanaimo District and District Lot 78 Nanoose District Plan VIP87122 and,
  - d. District Lot 2084, Nanaimo District, (Commercial Marina) Licence 109021.

from Commercial 5 (CM5) Zone, Subdivision District 'J', Residential 5 (RS5) Zone, Subdivision District 'J', and Water 2 (WA2) Zone, Subdivision District 'Z' to Schooner Cove Comprehensive Development Zone (CD45), as shown on Schedule '1', and with the following CD45 Sub-Zoning Areas as shown on Schedule '2', which is attached to and forms part of this Bylaw:

| Village Mixed Use             | CD45 – MU  |
|-------------------------------|------------|
| Marina                        | CD45 – MA  |
| Residential Multiple Dwelling | CD45 – RMD |

Introduced and read two times this 12<sup>th</sup> day of November 2013.

Public Hearing held this \_\_\_\_ day of \_\_\_\_\_ 20\_\_.

Read a third time this \_\_\_\_ day of \_\_\_\_\_ 20\_\_\_.

Adopted this\_\_\_\_ day of \_\_\_\_\_ 20\_\_.

### Section 3.4.145

## SCHOONER COVE COMPREHENSIVE DEVELOPMENT ZONE

CD45

# 3.4.145.1 APPLICABILITY OF THE BYLAW

The regulations of Regional District of Nanaimo Land Use and Subdivision Bylaw No. 500, 1987 shall apply to the lands zoned CD45. In addition to these regulations, and where there is a conflict with these regulations, the regulations of the CD45 Zone shall apply.

# 3.4.145.2 PURPOSE

The purpose of the CD45 Zone is to allow a mixed-use waterfront village with neighbourhood-oriented commercial shops and services, a marina, a range of multiple dwelling housing types, and a publicly accessible network of waterfront boardwalks, plazas, and pathways in accordance with Schedule 'C' – Schooner Cove Neighbourhood Plan in the Nanoose Bay Official Community Plan Bylaw No. 1400, 2005.

The lands encompassed within the CD45 Zone are divided into three sub-zoning areas including: Village Mixed Use (CD45 – MU), Marina (CD45 – MA), and Residential Multiple Dwelling (CD45 – RMD). Specific regulations apply to each zoning area, in addition to the Definitions and General Regulations as set out in the CD45 Zone.

The extent of each zoning area in the Lakes District Comprehensive Development Zone is shown on Schedule '3A' Zoning Maps of Regional District of Nanaimo Land Use and Subdivision Bylaw No. 500, 1987.

# 3.4.145.3 DEFINITIONS

*assembly use* means the use of land, buildings or structures to accommodate exhibits, special events or meetings and includes auditorium, church, museum, community hall, fraternal lodge, youth centre, theatre;

*artisan workshop* means production, service, repair or maintenance of an article, substance, material, fabric or compound, provided uses are not noxious or offensive to the immediate neighbourhood or the general public by reason of emitting odours, dust, gas, noise, effluent, or hazard; and having a gross floor area not exceeding 200 m<sup>2</sup> including retail sales accessory to the principal use;

*boat launching facility* means jib crane hoist, boat ramp or other means to launch and/or retrieve watercraft;

*commercial parking* means use of land, buildings and structures for the purpose of providing short-term commercial parking spaces;

*commercial use* means the occupancy or use of a building or land for the purpose of carrying out business, professional activities, artisan workshop, retail or personal service use;

*community garden* means a non-commercial facility for the cultivation of fruits, flowers, vegetables or ornamental plants;

*geodetic elevation* means the vertical elevation or height of a given point on land or above the surface of the water measured from the geodetic datum as determined by a BC Land Surveyor;

*grocery store* means a sales outlet contained under one roof, having a gross floor area not exceeding 750 m<sup>2</sup>, and providing for the retail sale and display of food and related goods;

*height* means that part of a building or structure measured above the geodetic datum as determined by a BC Land Surveyor to the outermost exterior walls or supports as indicated on a plan showing any complete vertical section of that part of a building or structure where permitted in the applicable zone;

*impermeable surface area* means the sum total horizontal area as measured from the outermost perimeter of all buildings or part thereof together with any ground covering that does not naturally exist on the site and cannot be readily penetrated by water, such as roads, paved parking areas, driveways, patios, games courts and the like, on the parcel expressed as a percentage of the total parcel area;

*liquor store* means a retail store licensed under the Liquor Control and Licensing Act, and amendments thereto, for the sale of beer, wine and other alcoholic beverages;

*live/work* unit means the use of a building or portion thereof for an economic activity including artisan workshop, personal service use or office in combination with a dwelling unit;

*marina* means moorage, boat launching facilities, and outdoor recreation use, including the rental and maintenance of boats and seaplanes, and which may be equipped with administration facilities, washrooms, showers and refuse disposal facilities;

**mobile food cart** means a mobile cart from which food and/or drink is dispensed, and where the entire stock of goods offered for sale is carried and contained in the cart and which may change locations from time to time, and which is not located in a permanent building or structure, and is removed from public access when not in use;

*multiple dwelling unit development* means the establishment of three or more dwelling units within a building on a parcel;

*neighbourhood pub* means an establishment with a liquor primary licence issued pursuant to the Liquor Control and Licensing Act and amendments thereto;

*resort condominium development* means a hotel and includes hotel units subdivided pursuant to the Strata Property Act and amendments thereto, with continuous occupancy not exceeding ninety (90) calendar days and does not include residential use;

*restaurant* means an eating establishment providing for the sale of prepared foods and beverages to be consumed on or off the premises, and may include café, delicatessen, and take-out restaurant but specifically excludes neighbourhood pub, drive-in and drive-thru establishment;

*retail store* means a sales outlet contained under one roof, having a gross floor area not exceeding 250 m<sup>2</sup>, and providing for the retail sale and display of goods, but specifically excludes industrial uses and gasoline service station;

seniors' congregate housing means a residential or institutional facility which provides for seniors' congregate housing units with common living facilities, one or more meals per day and housekeeping services, contains a common dining area with a capacity sufficient to accommodate all residents of the facility, and may contain accessory personal service use and accessory convenience store use;

*seniors' congregate housing unit* means a sleeping unit or a dwelling unit containing one or more sleeping units within a seniors' congregate housing facility;

*sleeping unit* means a bedroom or other area which is used or intended to be used for sleeping, or sleeping and living purposes, and which does not contain provisions for cooking;

*storey* means that portion of a building situated between the top of any floor and the top of the floor next above it, and if there is no floor above it, that portion between the top of the floor and the ceiling above it;

*temporary building* means a building which is not supported on permanent foundations and which may or may not be connected to community water or sewer;

*tourist accommodation* means the rental of a lodging unit in a hotel, motel, and cabin for the temporary accommodation of the traveling public with continuous occupancy not exceeding ninety (90) calendar days and specifically excludes a manufactured home and residential use; and,

*unit density* means a measurement of development intensity on a parcel, represented by the total number of dwelling units on a parcel divided by the parcel area in hectares (units per hectare) but excludes dedicated road and dedicated park.

## 3.4.145.4: GENERAL REGULATIONS

## 1) Total Number of Dwelling Units

The total number of dwelling units within the lands zoned CD45 shall not exceed 360 dwelling units.

## 2) Uses Permitted in all Zones

The following uses are permitted in all zoning areas of the CD45 Zone:

# a) Community garden

# 3) Rainwater Harvesting

Where a Building Permit is not required for rainwater harvesting structures, equipment and apparatus, including rain barrels and cisterns, they are excluded from the building setback requirements.

# 4) Seniors' Congregate Housing

Seniors' congregate housing, where permitted in the zone, is subject to the following regulations:

- a) For the purposes of calculating unit density, each *sleeping unit*, and each *sleeping unit* within a dwelling unit within a seniors' congregate housing facility is equal to 0.2 units;
- b) The gross floor area of a *seniors' congregate housing unit* shall not be less than 26 m<sup>2</sup> and not more than 50 m<sup>2</sup>; and
- c) Accessory personal service and convenience store uses, where provided, shall be contained within the seniors' congregate housing facility and shall be accessible only from an internal hallway or corridor. The combined total floor area of all accessory personal service and convenience store uses shall not exceed 150 m<sup>2</sup> per seniors' congregate housing facility.

# 5) Temporary Buildings, Structures and Uses for Seasonal Vending

*Temporary buildings*, structures, or *mobile food carts* for the purpose of seasonal vending on properties are permitted within any commercially zoned properties provided that potable water and washroom facilities are available on-site if food is served.

# 6) Resort Condominium and Tourist Accommodation

Temporary stays within *resort condominium development* or *tourist accommodation* is limited to a maximum consecutive or non-consecutive stay of ninety (90) calendar days per visitor in any twelve (12) month period within any resort condominium or tourist accommodation unit on a parcel. The relocation of a visitor to another unit within the parcel does not constitute the start of a new stay.

# 7) Building Height

The following regulations apply to building height within all zoning areas of the CD45 Zone:

- a) Structures such as antennae, chimney stacks, steeples, elevator housings, roof stairway entrances, ventilating equipment or enclosures for such equipment, skylights, flagpoles and the like are exempt from the height requirement.
- b) Structures for sustainable building technologies, such as wind turbines, solar panels and rain barrels, cisterns and the like are permitted to exceed the height requirement provided that:
  - i) No such structure covers more than 20% of the parcel area; or
  - ii) If located on a building, no such structure covers more than 10% of the roof area; and,
  - iii) No such structure shall exceed twice the maximum building height permitted by the zone.

# 3.4.145.5 VILLAGE MIXED USE

## CD45 – MU

## Purpose

The intent of the Schooner Cove Village Mixed Use zoning area is to establish a vibrant commercial and civic core with a pedestrian-oriented village on the waterfront and ground-oriented commercial uses such as restaurants, shops and services with residential uses above.

## Permitted Principal Uses

- a) artisan workshop
- b) assembly use
- c) grocery store
- d) office
- e) liquor store
- f) live/work
- g) multiple dwelling unit development use
- h) neighbourhood pub
- i) outdoor recreation
- j) personal service use
- k) recreation facility
- I) resort condominium development use
- m)restaurant
- n) retail store
- o) seniors' congregate care
- p) tourist accommodation

### **Accessory Uses**

- a) commercial parking
- b) marina sales
- c) tourist information booth

### **Maximum Density**

Maximum 50 dwelling units permitted in the CD45 – MU Zone.

### **Minimum Parcel Size**

| Commercial / mixed use                | 900 m²               |
|---------------------------------------|----------------------|
| Multiple dwelling unit<br>development | 2,000 m <sup>2</sup> |

### **Maximum Size of Buildings and Structures**

The maximum permitted building height shall be as shown on **Schedule 1 Maximum Building Height Plan** in the CD45 Zone and as summarized below:

| Hei     | ight                                                                                   |           |                                                                                             |
|---------|----------------------------------------------------------------------------------------|-----------|---------------------------------------------------------------------------------------------|
|         | Principal buildings                                                                    |           |                                                                                             |
|         | Area B                                                                                 | 18.0 m ge | eodetic elevation or 3 storeys, whichever is less                                           |
|         | Area C                                                                                 | 22.0 m ge | eodetic elevation or 3 storeys, whichever is less                                           |
|         | Area D                                                                                 | 26.1 m ge | eodetic elevation or 5 storeys, whichever is less                                           |
|         | Area E                                                                                 | 31.0 m ge | eodetic elevation or 5 storeys, whichever is less                                           |
|         | Accessory buildings                                                                    |           |                                                                                             |
|         | Area D                                                                                 |           | essory building is permitted to a height of 2 storeys, that a storey does not exceed 5.0 m. |
| Ma      | aximum Floor Area                                                                      |           | Total combined floor area for non-residential uses shall not exceed 2,325 m <sup>2</sup> .  |
| Раг     | rcel Coverage                                                                          |           | 70%                                                                                         |
|         |                                                                                        |           | 80% where the required parking spaces are located directly beneath the principal building.  |

|         |                                                                                        |           | 85% where the required parking spaces are located directly beneath the principal building.  |
| Minimum | Setback Requirement                                                                    | S         |                                                                                             |
|         |                                                                                        |           |                                                                                             |
| a)      | Lot lines fronting a h                                                                 | ighway    | 4.5 m                                                                                       |
| b)      | Lot lines that are cor<br>with Lot B, District Lo<br>Nanoose District Stra<br>Plan 745 | ot 78,    | 4.5 m                                                                                       |

- c) All other lot lines 0.0 m
- d) Notwithstanding Section 3.3.9 b) Setbacks Sea for Electoral Area 'E', a 0.0 m setback for buildings is permitted for up to a maximum of 35 percent of the length of the parcel boundary that is common to the sea.

e) Notwithstanding Section 3.3.9 b) Setbacks - Sea for Electoral Area 'E', a 0.0 m setback is permitted for structures.

## **Off-Street Parking Requirements**

| Seniors' congregate housing                                 | 1 space per 2 employees and 1 per 5 beds                                                                |
|-------------------------------------------------------------|---------------------------------------------------------------------------------------------------------|
| Commercial use,<br>restaurant use,<br>neighbourhood pub use | 74 spaces in total, plus 1 space per 3 seats where a restaurant or neighbourhood pub exceeds 100 seats. |

For other uses permitted in this zone, parking shall be provided as set out under Schedule '3B' Off-Street Parking & Loading Spaces.

In addition to the requirements of Schedule '3B' Off-Street Parking & Loading Spaces, the following bicycle parking is required:

| <b>Use</b><br>Commercial use,<br>restaurant use,<br>neighbourhood pub use | <b>Required Bicycle Parking Spaces</b><br>1 space per 475 m <sup>2</sup> commercial floor area adjacent to<br>primarybuilding entrances. |
|---------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------|
| Multiple dwelling unit<br>development use                                 | 1 secure interior space per 2 dwelling units, and 4 spaces adjacent to the primary building entrance.                                    |
| Seniors' congregate housing                                               | 1 secure interior space per 10 employees.                                                                                                |

## **Other Regulations**

- a) Non-residential uses shall comprise at least 20% of the total building floor area within a parcel.
- b) A maximum of one grocery store is permitted within the Village Mixed Use Zone.
- c) Notwithstanding Schedule '3F' Landscaping Regulations and Standards, Section 2.1.1 a landscape buffer is not required for a designated highway adjacent to a commercial use and multiple dwelling unit development.

## 3.4.145.6 MARINA

### Purpose

The intent of the Marina zoning area is to allow the operation of a marina business including a moorage, marina office, marine fuel supply station, and other ancillary marina services and facilities.

## **Permitted Principal Uses**

- a) assembly use
- b) boat launching facility
- c) marina use

### Accessory Uses

- a) convenience store
- b) marina fuel supply station
- c) marina sales

### **Maximum Size of Buildings and Structures**

The maximum permitted building height shall be as shown on **Schedule 1 Maximum Building Height Plan** in the CD45 Zone and as summarized below:

| Height<br>Area A | 11.0 m geodetic elevation or 3 storeys, whichever is less                 |
|------------------|---------------------------------------------------------------------------|
| Parcel Coverage  | 10% provided that no individual building covers more than 5% of a parcel. |

### **Minimum Setback Requirements**

Notwithstanding Section 3.3.9 b) Setbacks - Sea for Electoral Area 'E', a 0.0 m setback is permitted for buildings and structures.

### **Off-Street Parking Requirements**

| Marina use | 1 parking space per 4 marina slips |
|------------|------------------------------------|
|            |                                    |

Boat launching facility 20 boat trailer parking spaces

For other uses permitted in this zone, parking shall be provided as set out under Schedule '3B' Off-Street Parking & Loading Spaces.

A minimum of 25% of the parking required for marina use in the CD45 – MA Zone shall be provided within the lands zoned CD45 – MU and a maximum of 75% of the marina parking

#### CD45 – MA

may be provided within the lands zoned CD45 – RMD, provided that none of the required off-street parking is located within a highway.

The off-street parking required for a *boat launching facility* shall be provided within the lands zoned CD45 – RMD.

In addition to the requirements of Schedule '3B' Off-Street Parking & Loading Spaces, the following bicycle parking is required:

**Use** Marina use Required Bicycle Parking Spaces 8 spaces

## 3.4.145.6 RESIDENTIAL MULTIPLE DWELLING

#### CD45 – RMD

# Purpose

The Residential Multiple Dwelling zoning area allows for the development of multiple dwelling housing types including ground-oriented and low-rise condominium buildings. These smaller unit types are intended to provide opportunities for downsizing and ageing-in-place in close proximity to publically-accessible open space and village commercial uses.

## Permitted Principal Uses

- a) commercial parking
- b) multiple dwelling unit development use
- c) seniors' congregate housing

## **Maximum Density**

Maximum 310 dwelling units permitted in the CD45 – RMD Zone

### Minimum Parcel Size

Multiple dwelling unit 2,000 m<sup>2</sup> development

### **Maximum Size of Buildings and Structures**

The maximum permitted building height shall be as shown on **Schedule 1 Maximum Building Height Plan** in the CD45 Zone and as summarized below:

| Height              |                                                                                                                                                                                |
|---------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Principal buildings |                                                                                                                                                                                |
| Area D              | 26.1 m geodetic elevation or 5 storeys, whichever is less                                                                                                                      |
| Area F              | 37.0 m geodetic elevation or 5 storeys, whichever is less                                                                                                                      |
| Area G              | 42.0 m geodetic elevation or 5 storeys, whichever is less                                                                                                                      |
| Accessory buildings |                                                                                                                                                                                |
| Area D              | One accessory building is permitted to a height of 2 storeys, and<br>all other accessory buildings shall not exceed 1 storey, provided<br>that a storey does not exceed 5.0 m. |
| Area F              | One accessory building is permitted to a height of 2 storeys, and<br>all other accessory buildings shall not exceed 1 storey, provided<br>that a storey does not exceed 5.0 m. |
| Area G              | One accessory building is permitted to a height of 2 storeys, and all other accessory buildings shall not exceed 1 storey, provided that a storey does not exceed 5.0 m.       |

| Parcel Coverage          | 60%                                                                                        |
|--------------------------|--------------------------------------------------------------------------------------------|
|                          | 70% where the required parking spaces are located directly beneath the principal building. |
| Impermeable Surface Area | 80%                                                                                        |
|                          | 85% where the required parking spaces are located directly beneath the principal building. |

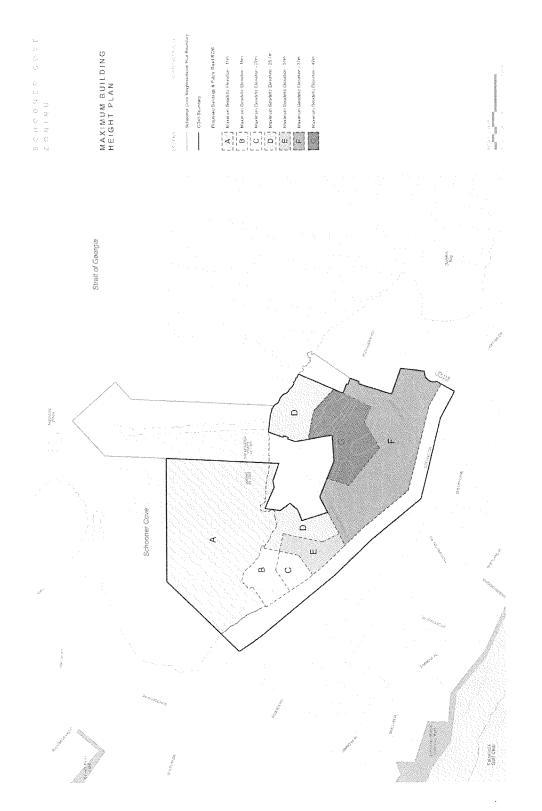

# Minimum Setback Requirements

Dear Mr. Holme. Please find attached a letter from my wife and I outlining our concerns with the draft zoning for Schooner Cove recently posted to the RDN website. Feel free to contact me by return email if there is anything we can do to clarify or follow-up on our comments, Brian and Karen Harschnitz

Please note that I have copied Jeremy Holm, the executive of the FCA, and key representatives of the developer on this note, and I am open to any comments or feedback they may have to offer.

Re: Fairwinds Schooner Cove Development

Dear Mr. Holme:

I am writing to you to provide feedback on the draft Regional District Of Nanaimo Bylaw No. 500.385 (A Bylaw to Amend Regional District of Nanaimo Land Use and Subdivision Bylaw No. 500, 1987) recently posted to the RDN Website. As the long time owners of Lot 3 Redden, my wife and I have a direct interest in how the proposed development at Schooner Cove unfolds, and we are extremely concerned with the maximum permitted building heights, size of buildings, and Permitted Principal Uses allowed in Area A and the west corner of Area B. All of this area is currently part of the water / sea area of the marina, yet the contemplated zoning allows for up to 116,000 square feet of building development<sup>1</sup> contained in 3 storey buildings of up to 36ft in height<sup>2</sup> for uses as diverse as a convenience store, marina office, auditoriums, churches, museums, community halls, fraternal lodges, youth centres, and theatres<sup>3</sup>. On top of this, up to 20% of the parcel can be used for a farm of wind turbines of up to 72 feet in height<sup>4</sup>. While this seems to be an extreme interpretation of what could happen to the current water portion of the marina, it's important to note that what was originally proposed by the developers in 2008/9 included many of these features<sup>5</sup>. There were several structures proposed in what is now designated Area A and the west corner of Area B, portions of which were 3 stories high, and consisted of a marina office, marina store, gourmet market, bakery café, marina amenities, and activity center, ALL LOCATED OVER WHAT IS CURRENTLY WATER!

The earliest proposals created quite a stir, as well as significant opposition. After receiving feedback, the developer rolled out "Key Guiding Principles" that included "Building placement and form should respond to the existing topography and responds to natural site features" and "Existing vegetation should be used to screen development and help define smaller neighbourhood clusters" and "building placement should reinforce or create views to the water" and "limit building height and/or locate taller buildings or elements in areas that will minimally impact views"<sup>6</sup>. They also responded to the feedback by modifying the proposed layout, moving the bulk of the structures onto what is currently land, and scaling back the massing of the buildings that would have the biggest effect on the marina views of the neighbouring houses<sup>7</sup>. In mid-2009 they conducted a detailed "view analysis", where they digitally superimposed the proposed buildings into the exact views from all of the affected residences, showing how minimal the impact would be.

These positive trends continued as the consultation process progressed, to where the "Final Neighbourhood Plan" first tabled in early 2011 scaled back building size and massing in the westerly most portion of the development even further, and no material structures (aside from the fuel dock and similar amenities) are included over what is currently water. Figure 1 outlines the progression of the building footprints over time throughout the consultation process. These new proposals developed tremendous public support, to the point where the June and September 2013 sessions were very well received in the community, and in fact the community was now exerting pressure on the RDN to proceed expeditiously with the approval process.

The materials presented to the public as late as September 23, 2013, reflect the efforts of more than 5 years of consultation and collaboration with the community, and represent a workable plan that has won broad support throughout the community. It's unfortunate that all of this was thrown away and totally disregarded in the only document that really matters, the Draft Zoning Bylaw now before the RDN. The proposed zoning not only allows the developer to proceed with the plans originally tabled in 2008, it allows them to go well beyond them in terms of the footprint of erected structures within the water area of the marina zone, destroying rather than "creating views to the water" and decimating rather than "minimally impact views" the views of the local residents. The View Analysis shared with local residents doesn't come close to reflecting the impacts possible with the proposed zoning. Figure 2 shows the proposed zoning areas superimposed on the "Adopted" land use designations displayed at the September meetings.

Since it is clear the developer has no intent of honouring the process that has unfolded to date, it's critical that the RDN take the steps necessary to modify the proposed zoning so that it aligns with the developer's proposals that have garnered so much community support over the past few years. I understand the developers desire to retain as much flexibility as possible within the zoning to ensure a viable development when the final planning gets underway. However, the proposed zoning goes far beyond providing flexibility, allowing the very uses and development that the developer has moved away from during the extensive community consultation process.

At a minimum the following changes are requested to align the zoning with what the developer has proposed to the public over the past two years:

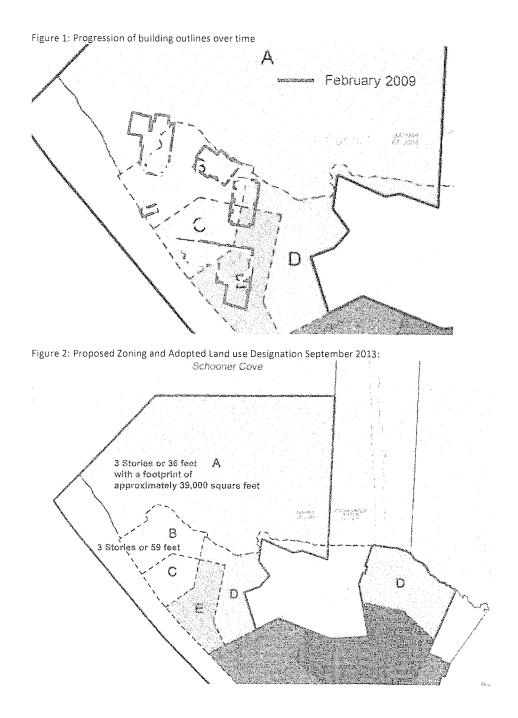

- 1) Modify Area A and B outlines to include the water area in the west corner of B as part of Area A.
- Modify the maximum height of buildings and structures in Area A to 4m or 1 storey, whichever is less
- 3) Modify the permitted uses of Area A to include only
  - a. Boat launching facility
  - b. Marina use
- 4) Eliminate the allowance for a 0.0m setback from the sea in area B
- 5) Eliminate the permitted erection of wind turbines up to 72 feet tall over 20% of Area A

While it is important to keep the process moving along in a timely manner, it is even more important to ensure that the zoning approved by the RDN reflects the outcomes of the extensive consultation process conducted to date. It is the zoning, not the poster boards presented over the years (with riders such as "For illustrative Purposes" or "subject to refinement"), that will ultimately control what is built at Schooner Cove. The proposed draft zoning goes way beyond what would be required to allow the developer reasonable flexibility in executing the latest proposals when it comes to Area A and the western corner of Area B.

Note that we have limited our comments to Area A and the western corner of Area B, as we have not had the time to review the rest of the documentation. We trust that you will find this feedback helpful.

Respectfully submitted by

Brian and Karen Harschnitz

 Parcel Coverage 10% provided that no individual building covers more than 5% of
 a parcel.

Parcel area A is approximately 36,000 square meters or 390,000 square feet in size. 10% is approximately 39,000 square feet. At three stories, total permissible development is approximately 116,000 square feet.

- REGIONAL DISTRICT OF NANAIMO BYLAW NO. 500.385
   3.4.145.6 MARINA CD45 MA
   Maximum Size of Buildings and Structures
   Area A 11.0 m geodetic elevation or 3 storeys, whichever is less
- REGIONAL DISTRICT OF NANAIMO BYLAW NO. 500.385
   3.4.145.6 MARINA CD45 MA
   Purpose
   The intent of the Marina zoning area is to allow the operation of a marina business including a moorage, marina office, marine fuel supply station, and other ancillary marina services and facilities.
   Permitted Principal Uses

   a) assembly use
   b) boat launching facility
   c) marina use

where "assembly use" means: "the use of land, buildings or structures to accommodate exhibits, special events or meetings and includes auditorium, church, museum, community hall, fraternal lodge, youth centre, theatre;"

REGIONAL DISTRICT OF NANAIMO BYLAW NO. 500.385
3.4.145.4: GENERAL REGULATIONS
7) Building Height
The following regulations apply to building height within all zoning areas of the CD45 Zone:
b) Structures for sustainable building technologies, such as wind turbines, solar panels and rain barrels, cisterns and the like are permitted to exceed the height requirement provided that:
i) No such structure covers more than 20% of the parcel area;

This message pertains to correspondence forwarded to you from Brian and Karen Harschnitz via email dated 16 Nov 2013. I too am a resident of Redden Road.

I am in agreement with the concerns Mr. Harschnitz addresses in his message.

It indeed disappointing that after such a long process that your draft not reflect the collective agreement of all concerned. Perhaps at the next public meeting you might be prepared to clarify why this particular draft has been presented.

Bruce Petry. 3353 Redden Rd.

Re: Fairwinds Schooner Cove Development, Bylaw 500.385

Dear Mr. Holme:

Upon reviewing the Draft Bylaw 500.385, we realize that this Draft Bylaw does not, correspond with the proposal as presented to the public by the developer as late as September 2013. Bylaw 500.385 after 3<sup>rd</sup> reading is the **ONLY LEGAL** document the community will have to control development in Schooner Cove.

The proposal presented by the developer September, 23, 2013, (while seeking support of the Community to pressure the RDN into a hasty approval,) was expected to be reflected in the Bylaw controlling that development. The draft **does not offer protection** to view properties adjacent to the development or for distance views. 1) The draft allows for buildings with a foot print of approximately 44,433 sq. ft. (Exhibit 1) and 3 stories high (11.0 m or 36ft) for a total of 133,300. Sq ft., with no restrictions as to the location of this building/s within Area A. 2) Up to 20% of Area A may be used for a Wind Turbine farm, with a height of 22.0 m or 72ft. As this applies to all areas within Schooner Cover there is potential for a tower of 276 ft. (Area G) Any property with as much as a minimal view of Schooner Cove would be impacted by such development. These examples by no means cover all the discrepancies in the Bylaw.

The Bylaw treats Area A, the Leased Marina Area (Exhibit 1) In the same manner as developer owned land. Under the terms of the lease the Leased Lands must be able to be restored to the condition (including boundaries) at the time of the commencement of the lease. Exhibit 2. There appears to be differing figures as to area and boundaries of Area A. The RDN should ensure that all outlines correctly reflect these appropriately as in Exhibit 1. The permitted uses as outlined in the Bylaw differ substantially from those permitted in the Lease agreement. Exhibit 3. Eliminating the 0.0 m setback in the Bylaw would protect the boundary of the leased area.

The Current owner/developer has presented a proposal in order to get community support for approval of a development, without guarantees to the community that the presented proposal would be respected. The developer has on occasion threatened the community with disposing of the properties, to devious developers. It is critical that the RDN protect the community by modifying the Draft Bylaw to reflect what has been proposed by the developer, after all the amendments from 2009 to September, 23, 2013 and accepted by the community. Anything less would be negligence on the part of the RDN. The potential for "sustainable building technologies" such as cell phone towers or wind turbines were never mentioned during the consultation process.

It is my understanding that a proposed Phasing Bylaw will be brought to the Board for  $1^{st}$ . And  $2^{nd}$  reading at the next Board meeting or soon thereafter. This Bylaw is expected to contain a clause requested by the developer for a moratorium of 20 years, whereby the Community and the RDN cannot interfere with their activities. It is imperative that the RDN notify the Nanoose

communities of the impacts of this Bylaw prior to the public hearing, in plain language. It was clearly explained to me by the RDN, that any comments, requests for changes or arguments, regarding this Bylaw and the proposed Bylaw must be received prior to the end of the Public Hearing. Should people who learn of a discrepancy at the public hearing decide to challenge the Bylaw, their complaint will not be heard or considered, once that meeting is ended. The Bylaws then go to 3<sup>rd</sup> reading and become Law, unchallengeable fo 20 years.

Although I have not addressed all the possible discrepancies, the following changes are requested for the protection of the community:

1) Modify Area A and B outlines to include the water area in the west corner of B as part of Area A (ensure the boundaries of Area A are as in Exhibit 1).

2) Modify the maximum height of buildings and structures in Area A to 4m or 1 storey, whichever is less

3) Modify the permitted uses of Area A to include only

- a. Boat launching facility
- b. Marina use
- 4) Eliminate the allowance for a 0.0m setback from the sea in area B

5) Eliminate the permitted erection of wind turbines by removing the wording "wind turbines from 3.4.145.4; GENERAL REGULATIONS 7) Building Height b).

6) Change 7) b) iii) to:

iii) No such structure shall exceed 110% of the maximum building height permitted by the zone.

While it is important to keep the process moving along, it is even more important to ensure that the zoning approved by the RDN reflects the outcomes of the extensive consultation process conducted to date. It is the zoning Bylaw that will ultimately control what is built at Schooner Cove. The proposed draft zoning as provided by the developer to the RDN, goes way beyond what would be required to allow the developer reasonable flexibility in executing the latest proposals when it comes to Area A and the western corner of Area B.

Respectfully submitted

Nettie and William Kokura

Re: Follow-up to my zoning submission dated November 16<sup>th</sup>, 2013

#### Dear Mr. Holme:

While the proposed zoning caused me to question Fairwinds' motives, their response has been commendable. Russell Tibbles followed up promptly, and the phone meeting he scheduled would be best characterized as a sincere discussion focused on ensuring the requested zoning was modified to reasonably reflect the current Neighbourhood Plan that everyone has worked so hard on - no more, no less. Russell was very passionate about the proposed Neighbourhood Plan, and he showed a strong commitment to a development that reflected the results of the ongoing consultation process. His proposed modifications to the zoning differ slightly from my request, but do a good job of fulfilling the intent of aligning the documents, while allowing the normal flexibility required to move the development forward. I have also followed up with Jeremy Holm, and my understanding of the consensus position is that the zoning document will be modified as follows:

- 1) The application will be amended to re-align the Area A / Area B boundary of the Maximum Building Height Plan to match the sub-zoning area depicted on Schedule '2' of the Schooner Cove CD Zone. At the development stage, a Development Variance Permit will be required in order to allow the jib crane hoist within the Marina zone.
- 2) The application will be amended to reduce the building height in Area A to the current maximum permitted in the marina of 1 storey or 5m. In addition, the permitted total parcel coverage in the Marina sub-zone (A) will be cut in half to 5%, with no single building exceeding 1% parcel coverage.
- 3) I have no issue with the intent of allowing meeting space for groups such as Schooner Cove Yacht Club at their current "Afterdeck" building. Jeremy is to discuss the appropriate wording with Fairwinds based on their revised submission.
- 4) No change will be made to the proposed 0.0m setbacks in Area B. To implement the Neighbourhood Plan vision of a waterfront village, the CD Zone allows a limited amount of building footprint (35%) on the water's edge. In addition, a 0m setback for structures is required to enable the planned public waterfront boardwalk. I agree that this is consistent with the Neighbourhood Plan
- 5) The RDN has sustainability goals, including specific technologies such as wind turbines, and Jeremy will explore with Fairwinds the concept of removing Area A from this requirement.

Once incorporated into the zoning, these changes will fully address the concerns with the original proposal that my wife and I expressed in our submission of November 16, 2013. We really appreciate both Fairwinds' and the RDN's quick response in addressing this. I look forward to hearing how the modified zoning is progressing through the process.

1

Best Regards, Brian Harschnitz

November 20, 2013

George Holme Electoral Area E Director gholme@shaw.ca

Dear Hr. Holme:

#### Re: Fairwinds Schooner Cove Development

My wife and I reside at 3496 Grilse Road, Nanoose Bay. We purchased our home in September 2012. Our intention is to reside here for many years with the thought of "aging in place". The property is located directly across the water from the marina in Schooner Cove. The primary factor in choosing to move to the area was the uniqueness of the cove. The quaint size, amazing vistas and the blending of residential and marina use into the natural landscape makes it a special place indeed. The possibility of the Fairwinds Schooner Cove Development was an added consideration which on a broad basis, we whole heartedly support.

The draft Regional District of Nanaimo Bylaw No. 500.385 (A Bylaw to Amend Regional District of Nanaimo Land Use and Subdivision Bylaw No. 500, 1987) has recently come to our attention. Most concerning is the provision under the General Regulations, Section 7 Building Height, which provides for .... "Sustainable building technologies, such as wind turbines, solar panels " ... that can cover up to 20% of the parcel area and exceed up to twice the maximum building height. Potentially this means up to 20% of Parcel A (the marina water lot) could be covered with wind turbines or solar panels to a height of 22 metres (72 feet). The placement of such structures is totally inconsistent with the character of the neighbourhood. While the developer is unlikely to build such structures in the near term, the Bylaw as it is drafted does make the provision. We strongly urge the Regional District Board to remove that portion of the Bylaw so as to provide certainty for local residents. If and/or when there is an interest in building such structures, the appropriate planning process can be undertaken.

We have attended several meetings since moving to the area and this is the first occasion to hear of the provision. The Nanaimo Regional District should ensure that local residents who could be impacted are properly advised so their concerns can be noted. Additionally, the Bylaw provides for maximum building height of the lesser of 11 metres or 3 stories in Parcel A. Given the proximity to residents across the cove and the visual impact of a taller building, a maximum height of 2 stories would be more appropriate.

Thank-you for considering our comments and please feel free to contact us for further information.

Yours sincerely

Tab Man -Graham and Trish Marrion

| Subject: | Schooner Cove Development Draft Bylaw                     |

#### November 21, 2013

Please find this email written on behalf of myself and my wife. We reside at 3482 Grilse Road, Nanoose Bay. Our property faces directly onto Fairwinds Schooner Cove Marina. We have owned our property for several years and have watched, over the years, the decline of the adjacent Fairwinds Marina site. We have followed the process to arrive at the draft of the Regional District of Nanaimo Bylaw number 500.385. We feel that the overall project would be very beneficial to Schooner Cove and surrounding area, however, we feel that the wording of the proposed Bylaw for the marina portion CD45-MA should not be included with the other 2 parcels MU and RMO. We feel that the marina portion should have a building height restriction of one storey and no wind turbines or solar panels . CD45-MA should have the sole use as a marina. In reviewing the draft, it is noted that Dolphin Drive will be closed to vehicle traffic which we fully support. Unfortunately, we see, on the drawings, the roadway will be used for vehicle parking. We do not believe this should be permitted. It should be used for a public pedestrian walkway and park area only We are very excited for this project to begin but we can only hope these changes can be implemented. Thank you your attention to this matter and we hope these concerns will be met.

Dwight and Joani Schnuth 3482 Grilse Road Nanoose Bay, B.C.

| Subject: | Re: Draft zoning for Schooner Cove                    |

George / Jeremy - I have asked Russell to call me to help me understand this better as it is not intuitively obvious to me that if similar structures exist today, and the current zoning is 5m, why it needs to be 40% higher, at 7m for the new zoning. I sent my response to you and a number of the residents of Fairwinds (same distribution as my submission) early yesterday afternoon, after receiving Russell's letter specifying Fairwinds was supportive of 5m and talking to Jeremy, long before hearing about this issue. If the new draft zoning changes from the 5m, I owe it to myself, and the other residents I have been in contact with, to understand it well enough to be able to clearly explain it. Since the height ripples through to the other aspects such as footprint and uses, my earlier response to you may have been negated by this change - without more information I simply can't say one way or the other. I hope to hear from Russel soon, and will let you know what my position is on this as soon as practical after that, although I will be driving to Edmonton from 9:00 am Pacific to about 12:00 Pacific. If you need to reach me to discuss, my cell is (403) 803-0920.

Your understanding is appreciated, Brian

From: "Russell Tibbles" <RTibbles@Bentallkennedy.com> To: "Brian Harschnitz" <harschnb@telus.net> Cc: gholme@shaw.ca, jholm@rdn.bc.ca, gathom@telus.net, Fenske@ekistics.ca Sent: Thursday, November 21, 2013 6:13:45 PM Subject: RE: Draft zoning for Schooner Cove

Brian,

Further to my discussion with you of yesterday evening (followed by my letter), and your discussion with RDN of this morning, I have had the opportunity review this with my own team, as well as RDN staff today. We came to realize that, to facilitate both floating structures such as the afterdeck, as well as the proposed waterfront boardwalk, the height provision for area "A" (your item 2) should be as follows: "7.0m geodetic elevation or 1 storey, whichever is less, notwithstanding floating buildings and structures shall be measured from the surface of the water."

I hope this revision does not alter your view of the resolution, and I trust that you appreciate the delicate balance we are seeking to maintain, to ensure that the Schooner Cove Zone remains capable of enabling the vision in the Neighbourhood Plan.

Regards,

Russell

Subject: Draft zoning for Schooner Cove

Dear Mr. Holme. Please find attached a letter from my wife and I outlining our concerns with the draft zoning for Schooner Cove recently posted to the RDN website. Feel free to contact me by return email if there is anything we can do to clarify or follow-up on our comments, Brian and Karen Harschnitz

Please note that I have copied Jeremy Holm, the executive of the FCA, and key representatives of the developer on this note, and I am open to any comments or feedback they may have to offer.

Subject: Re-Zoning Application: (BYLAW No. 500.384, et al): THE LAKES DISTRICT

#### Dear George,

Please find attached a letter from the Nanoose Naturalists regarding the above. If you have not already done so, we urge that serious consideration be given to the matters raised in this letter. I realize that the approval process and drafting of the Phased Development Agreement are at an advanced stage. However, I sincerely hope that an effective enforcement process is included therein and remind you that this issue was brought to your attention back in June 2010.

Overall, we compliment all parties involved for the professional manner in which this development proposal has been handled and on the model design that is the result of their considerable efforts.

We look forward to being able to review the final PDA at or before the proposed public hearing next month.

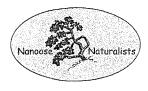

Assuming final approval is given for the project, members of the Nanoose Naturalists will be willing to assist in any manner appropriate to ensure that the project is successfully implemented and monitored.

Kind regards,

Tony. --*Tony Ransom* Past President and Chair (Stewardship Committee ) Nanoose Naturalists

November 22nd, 2013

Dear George,

#### FAIRWINDS RE-ZONING APPLICATION (BYLAW No. 500.384, et al): THE LAKES DISTRICT

Over the past 5 years, the Nanoose Naturalists has written letters to the RDN and made submissions at various meetings regarding the Development Proposal by Fairwinds for The Lakes District, Nanoose Bay. This letter intends to summarize our position and remind the RDN of some of the issues and our remaining concerns.

Fundamentally, as naturalists and stewards of the environment, we would prefer the area remain pristine and no development take place. However, we recognize that the land is privately owned and is subject to an approved OCP and RGS. During the early stages of the planning process for the Neighbourhood Plan, we took an active role as a member of the CAG established by Fairwinds. We played a pivotal role, together with other members of the CAG and with the cooperation of the Fairwinds Development Team, in ensuring that the majority of the known sensitive ecosystems within the area fall under at least one form of protection and that wildlife corridors are relatively contiguous. We therefore support the Fairwinds Re-zoning Application.

Nanoose Naturalists fully embraces the Developer's stated VISION: "Create (a vibrant new oceanfront village as the centrepiece to) sustainable residential neighbourhoods that respect and protect environmentally sensitive areas."

If approved, the developers, with support from the RDN, will have the responsibility to implement the plan as designed and ensure that these sensitive ecosystems remain protected through appropriate covenants. If they succeed, this will be a model for future large-scale eco-friendly residential developments on the Island and indeed BC and Canada. The Lakes District in Fairwinds will surely become a most desirable place in which to reside.

However, we are deeply concerned, both during and after the implementation process, about what remedy exists should owners or contractors contravene the proposed covenants and seriously impact the areas to be protected. Particular reference is made to a letter/submission delivered to the RDN at the public hearing on June 28<sup>th</sup>, 2010, - items #6 and #7. An extract from this letter is included herewith.\*\*

We urge you and the developers to draft into the Phased Development Agreement a comprehensive process whereby the **consequences of non-compliance with the covenants are fully defined** and that there is an **effective enforcement policy** in place that encourages compliance.

ahransom@gmail.com

We would like to propose a "3 STRIKES AND YOU'RE OUT" approach for contractors and owners:

- 1. First violation: heavy fine (say \$10,000);
- 2. Second Violation: very heavy FINE (say, +\$50,000);
- 3. Third Violation: BANNED from any future contracts in The Lakes District.

This may sound somewhat draconian – but past experience at Fairwinds demonstrates an unwillingness or inability to enforce the very covenants set by themselves. We believe it will only take one or two strict enforcements of the above proposal to ensure compliance with the rules.

Credit must be given to all those involved for a professionally designed development plan which, as it currently stands, we endorse. It would be sad to see Fairwinds' *vision* fail because of an ineffective enforcement process.

Respectfully Submitted, Tony Ransom Stewardship Comm/Past President, Nanoose Naturalists.

With copies to:

\*\* Extract from above-referenced letter:

- 6. Covenants, <u>covering the buffer-zones</u> within and between individual development property/lots and the boundaries of designated parklands, need to be carefully designed and an enforcement mechanism acceptable to the Community put in place. The Covenants should be supplemented by the requirement that Owners and Building Contractors (especially site-preparation contractors) make a SUBSTANTIAL cash security deposit against adherence to the Covenants - with a Zero-Tolerance PENALTY for violators.
- 7. Individual Building Permits should only be issued to each owner once a FINAL Building Envelope Plan has been approved. Such permit would require the owner (and their contractors) to adopt "minimum disturbance" or "Site Adaptive Design" practises taking the ecological characteristics of each site into consideration. A specific requirement before submitting a Building Envelope Plan would be that each property has an Arborist (or a similar qualified expert?) Report detailing the significant flora requiring protection. The Owner's deposit referred to in #3 above would also cover this aspect of development and should be withheld until after final approved landscaping of each property. [Note: Covenants related to construction materials and building specifications are separate from these items]

Paul Fenske Brian Harschnitz Gerry Thompson chooner Cove, the prime ocean front property in Fairwinds, is in my

Schooner Cove, the prime ocean front property in Fairwinds, is in my opinion the jewel of the Fairwinds community. For that reason it is important that future development provides attractive waterfront amenities that can be enjoyed by the whole community. It is important that we get it right, and most Fairwinds residents believed the Schooner Cove Neighbourhood Plan did just that.

Therefore, I was alarmed to learn about the discrepancies between the proposed draft zoning bylaw and the Neighbourhood Plan, approved as recently as last September. For most of us, it was not a specific concern about wind turbines as suggested by the FCA email, but rather the size and location of buildings in relation to the shoreline.

Except for the 20 year moratorium, which I continue to question, last week's negotiations quickly resolved most of the concerns. I want to thank the key participants in the emails and phone consultations between Fairwinds, RDN, and residents, which resulted in Mr. Tibbles' email entitled, "Schooner Cove Zoning Amendment Application". I believe we are back on track and I look forward to an ocean front development everyone can enjoy?

Sincerely, Virginia Jolley Fairwinds resident
